

1967

2007 Update

Glenclyff High School Class of 1967

Current Biographies
of classmates,
40 years later.

*“Here’s to all of us! For there’s so much good in
the worst of us, and so much bad in the best
of us, that it hardly behooves any of us, to
talk about the rest of us!”*

Glenclyff Class of 1967 - Preamble

“Here’s to the “us” that are here, to the “you” that are there and the rest of us everywhere!”

I was talking with one of our teachers from Glenclyff last year and she said that our class was one of the very best to have ever come out of GHS. I really didn’t think much about that at the time but now that I have compiled this little booklet on “where we have been and what we have done over the last 40 years” her statement has a lot of meaning.

40 years ago we could combine our change, buy gas, and ride around for an entire day. Now the same amount of change will only buy about one gallon of gas.

We have seen many changes in those 40 years but the best changes have been in us. We have grown, learned, played, loved, lost loved ones, and even lost some of our own. We have gone on to be educators, professionals, business owners. Some have proudly served our country and some of us have already retired. We have accomplished a lot in 40 years and should be very proud of ourselves.

A common theme is noticeable in the bios. We are happy and productive and know that we have been blessed in many ways. I wish that I had been able to have a bio on everybody. Thank you all for letting me invade your lives and pester you for your information.

To forty more years!

Cindy Farringer

Cindy Epps Farringer

The following are biographies that ya’ll wrote in (mostly) your own words except for syntax and edits that we had to do to get it to all fit in. We hope that none of you are going to be mad that we cut something out to shorten your bio, or we misspelled something. If we goofed, we are sorry about that. However no retractions will be published.

This work is copyrighted and can not be reprinted without express written permission..
(Who would want to do that?)

Bios are in no particular order. See alpha index pages to find yours.

Glenclyff Class of 1967 - Current Bios as of 2007.

Lucinda Lee Epps (Farringer) - After graduation I attended Belmont University. My summer job in 1969 was at a travel agency. I loved it so much that I never got around to going back to college. I was lucky to find a summer job that never ended. I enjoyed the travel. I married Lou Farringer (a native Nashvillian and someone that I was in the second grade with) in 1976. I stayed in the travel business while we raised his two daughters which were 8 and 4 when we married.

We moved to Bellevue one month after our marriage and are still there. We have both been very active in the community over the years. Our daughters are both married and have a boy and a girl each. Our favorite pastime right now is our grandchildren. We are empty nesters but we do share our home with Miss Lily, a sassy black and white cat that found us a few years ago.

Five years ago I opened BELLE MEADE VACATIONS with six other women and it has worked out great. The only thing that we fight over is the thermostat! Lou and I enjoy traveling, especially cruises. My life is good and I have been blessed in so many ways.

Edward "Eddie" Randall Ventress - I joined the Air Force after leaving the hallowed halls of learning and got to see parts of the World I had never seen before. Exotic places such as Thailand, Guam, Wake Island, San Antonio, Texas, Sumter, South Carolina and Goldsboro, North Carolina to name a few of the fantastic places I got to visit. After I got out of the Air Force, I came running back to the hills of Tennessee just as fast as my 1963 Thunderbird could pull the rental trailer.

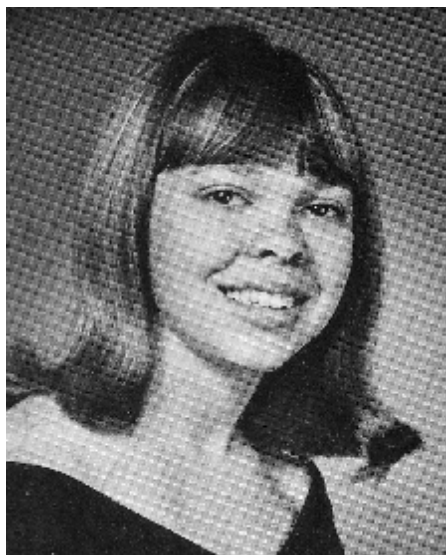

I got into a system of "finding myself", looking for that "perfect occupation" before settling in to a career with the Tennessee Military Department, Air National Guard. I gave them 26 years of my Life, learned a couple of trades, got to travel a lot, and all in all enjoyed the time spent.

I "retired" in 2002 and in '03 married my soul mate. I sure kissed a lot of "frogettes" to find her, but I did. We moved to Florida to get some sand in our shoes. Paradise was great on the Gulf Coast until the stress of working and the traffic and the construction, and last but not least, politicians, drove us back to Tennessee. We now live in White House, Tennessee where we spend what little free time we have working around the house and yard.

Sandy is retired from the State of Tennessee and is happy planting flowers and trees. I am a member of the Coast Guard Auxiliary, a volunteer arm of the U.S. Coast Guard. I've been doing this for about four years now and thoroughly enjoy it.

Hmmm what next? If I left anything out, we can catch up on this at the reunions.

Glenclyff Class of 1967 - Current Bios as of 2007.

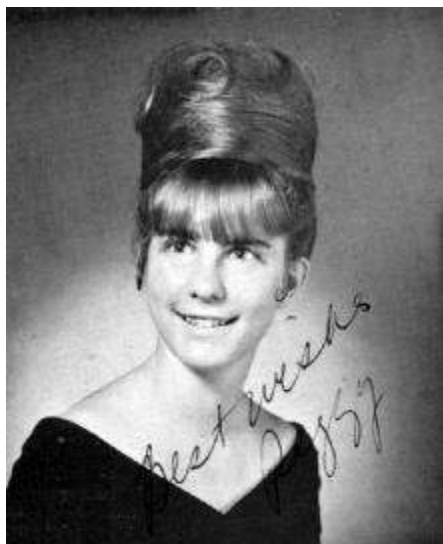

Kathy Lee (Vaughn) - After graduation I attended MTSU. In 1972 I married Mike "Minnow" Vaughn. We have two sons, Micheal and Cayce. Both are single, healthy and handsome (If anyone has an eligible daughter who might be interested, I would be happy to provide pictures and resumes).

In 1983 we moved our family from Nashville to Franklin. When our sons started school, I went to work at a local Elementary school. After fifteen years, I "retired" so I could travel with Mike. We have had many great trips with several organizations he is associated with through his business.

Mike and I enjoy traveling and are looking forward to an Alaskan Cruise and Tour next month.

Life has been good and I am blessed with loving family and friends. I have wonderful memories and great hope for the future.

Peggy Gail Gunn (Earheart) - After high school, I graduated from Austin Peay where I studied history and worked part-time in the political science department. It was also there that I first seriously took up tennis and dance, which became a big part of my life.

I've been married for 36 years to John, who I first met at our local H.G. Hills grocery store. We enjoy so many of the same interests: sports, traveling, church & charities, and politics. Once the children came along, our lives revolved around the baseball diamond, gymnastics, and the dance studio.

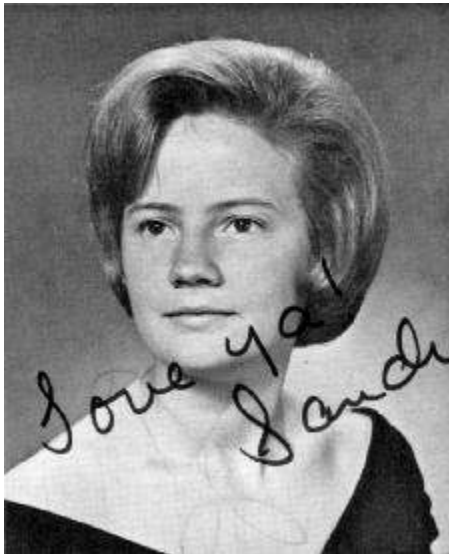

We have two children, Jason and Jenn. Jason is a foreman at Bouchard in Nashville, but last year moved with his lovely wife (whose name is also Jennifer) and my precious granddaughter, Serenity, to live in the 'Boro. I miss the convenience of when they only lived five minutes away from my Antioch home.

My daughter, Jennifer is a sophomore at an out-of-state university. (Some of you may remember that I was walking around pregnant with her at our 20th high-school reunion!) Well, that baby became a seriously devoted dance student. Both Jenn, and her niece Serenity are becoming world travelers too. It's been vicariously fun to see the joy of travel through their eyes too.

John and I are making the transition to "empty-nesters" after the last 10 years of being "dance parents" Well, not totally "empty" as we have two dogs, one cat, and a rare Amazon parrot that continually thrills all of our guests with her Southern vocabulary!

I've had a truly wonderful career at Vanderbilt University. After a series of various Vandy positions, since 1994 I have managed the 900,000 volume Vanderbilt Library Annex. We literally work with scholars from around the world; and no two "research" days are ever the same. Likewise, Vanderbilt has enabled me to travel to many conferences around the country and to Canada.

Glenclyff Class of 1967 - Current Bios as of 2007.

Sandra Faye Parrish (Shawhan) - From Glenclyff to Lambuth University. Traveled over the US as a field rep for Alpha Xi Delta Sorority. Got Master's at Ohio State and was on the Dean's staff for Greek Groups. I married in 1973 and divorced in 1980. I have one son, Jason, who is a movie critic in Nashville. I am single with no grandchildren. Dean of Students at Lincoln Memorial University and women's athletic director between 1974-1981. Returned to Nashville in 1981 and became a Certified Financial planner and had a business until 1993. Went to Vanderbilt Divinity School for my Master's in Divinity and became a United Methodist Elder in 1996. Got my Doctor of Ministry degree at Columbia theological Seminary in area of spirituality. Have served United Methodist Churches in Mt Juliet, Walnut Grove (near White House, TN.), Crossville First UMC and now in Nolensville First UMC. I am also a Rule 31 Mediator for the State of TN.

James Randall Gower - Ok, What do you want to know? I am older, fatter, and have been married to the same woman for 37 years. How much boring can that be? I was in the printing business for 16 years, sold that in 1999 and for the last 4 years have owned and operated a direct mail house in Nashville. The state took the house I had lived in for 35 years in 2004 so I had to move. Lord what a person can accumulate over 35 years. I still live in Franklin and I have 2 kids and 5 grandkids, McKenize -9, Morrow-13, Jake-9, Ansley-6 month and Collins-1 month. I play golf (badly) and sit on the couch. It is hard to make a "ho hum" life sound exciting. Although I haven't been on any safaris or sky diving I am very happy and for the most part in good health.

Shirley Ann Mingle (Tucker) - Shirley (class of 67) has been a sales rep for Sealtest, Sales Manager at Meadow Gold, and National Account Manager for Kroger. I (Gary, class of 66) am retired after 28 years at Xerox(I highly recommend this). We live in Old Hickory now and are enjoying our four grandchildren. We bought a camper last year and have enjoyed taking the grandchildren with us whenever we can. They seem to enjoy it almost as much as we do!

Glenclyff Class of 1967 - Current Bios as of 2007.

Melinda Ann Summers (Pike) - I met my future husband in Biloxi, Mississippi in March of 1970. He went to Vietnam (2nd tour) and when he returned, I came up to live in Massachusetts, where he was from, and I am still here. We have been married 31 years. I have had a few "careers", I started as a wig stylist, then went to cosmetician, and now and for the past 25 years, have been a group fitness instructor. We have no children, just cats! We are presently selling our house, and 25 acres of land, and moving into our "next phase" of living. We bought a condo at a wonderful facility, that has everything we could possibly want to retire! (by that, I mean full fitness facility, pool, restaurants, pub, store, bank, performing arts theater, and much more.) The best thing, is we are the youngest couple there! (at least, I think this is good) I still come to Nashville about twice a year, as my sister's live near. I won't make the reunion this year, but will be thinking about everyone.

Harriet Sue Mason (Smith) - In the fall of 1967 I entered Belmont College graduating in 1971 with a BS degree in Education. I taught for 8 years in Sumner County as an elementary school PE teacher. I married Wayne Smith (from Georgia and a Georgia Tech graduate) in 1979. We lived in Charleston, SC and West Chester, PA during the years Wayne worked for DuPont. While in Pennsylvania I worked as a office manager for 3 Architects. We have 2 sons, a daughter, 3 grandchildren and a dog so far.

In 1993 we moved back to Tennessee, ending up in Franklin. I have worked for Lafarge North America, a cement company, for the past 12 years as Senior Office Administrator. I have also worked as a leader for Weight Watchers in the Franklin area for the past 8 years. Three years ago we moved out of the city to an area west of Franklin in the Greenbriar community near Leiper's Fork. We live in the country on about 2 1/2 acres along a creek in a beautiful valley. We both love working in the yard where I can mow the grass on my John Deere tractor!

We are active in our church, West Franklin Baptist and enjoy traveling and just being at home in the peace and quite. God has blest us over the years and we look forward to us both retiring and another new chapter in our lives.

Glenclyff Class of 1967 - Current Bios as of 2007.

Gary Luther – I left school at 16, married Sandra Watson, started having kids and stopped after four. We also have eight grandchildren and two great grandchildren.

Worked on Volkswagens as a mechanic then went to work for AVCO, played in band for years. shared stage with some country music stars. I sang and played drums. Was offered a job to play and sing overseas for the troops with Bob Hope. I played at Tootsies, parties, clubs

Went to work for Nissan, got hurt in 1989 and have been on disability ever since. I still sing and do Karaoke. My hobbies are singing, guns, shooting pool, fishing, and hunting, and spending money I don't have. My biggest accomplishment was excepting Jesus as my Savior.

Sandra Watson (Luther) - Gary and I left high school in '65. I was seventeen and Gary was sixteen. We got married and had four children. We now have eight grandchildren and two great grandchildren. The grandchildren range from 25 to the youngest 15. Our greats are 8 and 4. I worked several jobs, Aladdin's, Krystal, Babysitting, Bookkeeper for Service Merchandise and now I'm self employed cleaning houses and catering.

I'm into all kinds of crafts, right now I'm making watches. I have dabbled in some painting. I love to go to yard sales. I also love photography and working on my computer. I love anything challenging. My biggest accomplishment is staying married to Gary for 42 years. Ha, Ha.

Finding the Lord was the biggest accomplishment in my life. I stay very active in church activities. I love to plan parties, and organizing anything. Another accomplishment was I lost 70 lbs. I also love antiques. I am a pack rat and collect just about everything.

Most of what I collect are dolls, dishes and old toys. I like to be busy, busy, busy, busy.

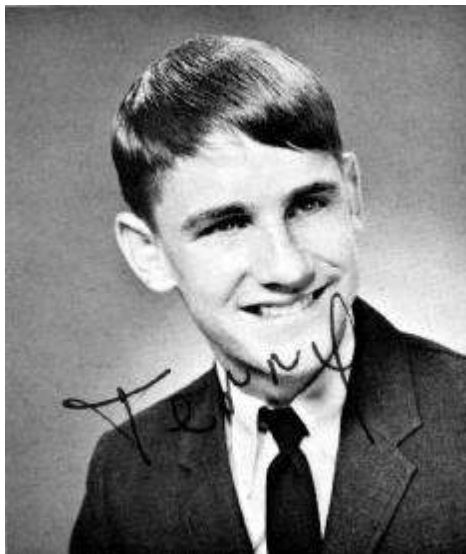

Glenclyff Class of 1967 - Current Bios as of 2007.

Jerry Richard Meyer - I don't look much different, except my hair is rapidly graying and thinning, and the mustache I've had since college is going gray too.

Went to UT (turns out the rest of the world thinks that means "University of Texas") and majored in Physics. Met and became engaged to English major Linda Liggett of Pulaski TN and we married after one year of grad school. I got my Ph.D. in Physics from Brown U. (in Providence RI) in 1977. Took a job at the Naval Research Lab in Washington DC, where I have worked ever since. Linda's first job in the area was teaching Reading at a private school in northern Baltimore, so we rented an apartment in southern Baltimore. Became attached to the area, so bought a house in the city and then one in Catonsville just to the south where we have lived for 20 years now. The big event was the birth of our only child, Caroline, in 1982. She is now in a Ph.D. program in French at University of Virginia (Charlottesville), since from an early age she refused to become interested in anything technical. We do, however, have a 10-year-old boxer dog, Gretel, who had to take up the slack once the nest was empty (that was hard - When there is only one it happens all at once).

Ever since grad school my work has been on semiconductor physics, which it turns out will never make one rich. Mostly basic research even with the Navy, but in recent years my group has finally developed our lasers to the point where someone may actually want to do something with them. We are trying to come up with the first small/cheap semiconductor lasers for infrared countermeasures against heat-seeking missiles, chemical/biological spectroscopy, etc. After finally becoming Section Head in 2000, it soon became apparent how preferable it is to be the boss. No intention of retiring until they drag me out feet first.

Terry Dale Davenport - Since graduation I have done the following:

Married, Military, 2 Children, Divorced, Remarried, 5 Grandchildren, Retired from the US Marine Corps Reserve, Worked in Banking 15 years and have worked in Sales to present.

Glenclyff Class of 1967 - Current Bios as of 2007.

Harold Kenneth Marshall - After graduation I attended MTSU for one year, or should I say I was enrolled. A lack of "attendance" led to a four year hitch in the Navy, after which I returned to MTSU and graduated in 1975. I then spent 30 years working for the U.S. Department of Veterans Affairs, retiring in January 2006. During that 30 year period I obtained a Masters Degree in Public Administration, got married, had a daughter, got divorced, and bought a Harley-Davidson; pretty much in that order. My daughter is now 19. Six months after retiring I took a part-time job with Williamson County Government as the Veteran Services Officer. a job I currently hold.

Bogart Thomas McNutty - Hello! Hello! Hello from what I like to call the Condos at River Bend. This is your ole classmate I wuz considered to be the class hellion back in the 60's... But what the hea.... them wuz the best 16 years of my life trying to get educated at good ole Glenclyff. Seems like I remember the Metro constabulary had other plans for me that year. Also seems like I remember being very popular on Saturday nights, and I don't think it wuz only because I wuz the only classmate over the age of 21 and could legally buy beer. My biggest regret about old Glenclyff was that it did not have a metal working shop. That would have really been a big help in preparing me for my future. I have "sort of" been employed by the State of Tennessee on and off since the Glenclyff days in the License Plate division. The State takes real good care of me... I like to call the big boss Warden, and Warden says I'll be too busy to make the GHS67 40th. Reunion - but with good behavior - I might make the 50th.... I know that there have to be some single women out there - and if they are looking for Mr. Right - they can send me letter... River Bend Maximum Security, Bogart T. McNutty, 7474 Cockrill Bend Blvd., Nashville, TN 37209 - or better yet - just stop by for a visit any Sunday afternoon.

Glenclyff Class of 1967 - Current Bios as of 2007.

Jamie Roberta Sneed (Helton) - After graduation, I worked for Life and Casualty Ins. Co. in the L&C Tower for 5 years. In 1971 I went out on a blind date with Roy Helton (class of '62) which was arranged by my friend and fellow '67 classmate, Donna Polk Davis, and her co-worker Alice Helton (class of '64). I thought Roy was a student at Murray State University in Murray, KY, but found out on the date that he was actually an English professor. He asked me questions such as who was my favorite poet. Well, we made it through that first date and many more and married in 1972. We didn't know each other in high school since I was in the 7th grade when he was a senior. He is still teaching at Murray State after 40 years, but I just retired in November 2006 after 27 years at Murray as a department secretary. We have a son and daughter who are both married and our daughter has a son, Connor, who will be two in September.

I'm enjoying retirement. Our daughter lives in Louisville so we visit her quite often and love spending time with our grandson. Our son is currently in school at the Univ. of Georgia working on an MFA in Art. We don't get to see him as often as we would like but enjoy visiting him in Athens. I see a group of my buddies from Glenclyff at least once a year, and we laugh about our years at GHS. Life is good.

Linda Carole Borgman (York) - I married my high school sweetheart (Randy) almost 40 years ago. We raised 2 daughters and 2 sons. Our 2 daughters and oldest son are married with a boy and girl each (our 6 pack of grandkids). Our youngest son is still single, but has been on his own for a number of years. We live on part of Randy home place which has been in his family since 1937. You would think we were in the country, but are in fact very near Hickory Hollow. We share our home with a yellow lab, a blue heeler and 5 horses.

I worked for a couple years after high school and then became a stay at home mom. When our oldest started school I became a volunteer in school and did that for 18 years. When our youngest was in 4th grade I started a paying job at Glengarry Elementary not far from where I grew up.

We have a classic 1966 GTO that Randy restored and enjoy cruise in car shows. We go to Gatlinburg twice a year for shows. Of course our grandkids are the light of our lives and spending time with them is wonderful.

It is hard to believe that 40 years ago we were all young graduates begin a new and exciting phase in our live. There were so many different roads to travel, carrying us far from home, yet I can stop and remember days in school with friends as if it were yesterday. I have been very blessed through the years with family and friends

Glenclyff Class of 1967 - Current Bios as of 2007.

Rita Ann Sledge (Little) (Locke) - I married in 1967, on my 18th birthday, to Phillip Little and had two wonderful boys, Flint and Chris. Phillip and I divorced in 1979 and it wasn't until 1992 that I found another unsuspecting soul, Tommy Locke. We married in 1994. Tommy was a big golfer when I met him so in order to see him, I took up the sport. We are members of Old Hickory Country Club where we both spend the majority of our time. Two years ago Tommy and I won the club's couple championship

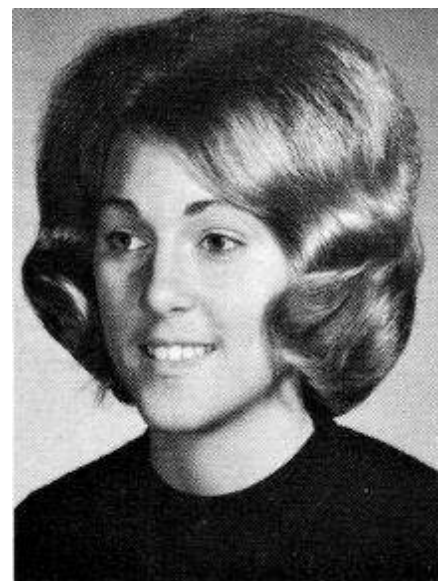

We have been blessed with a beautiful granddaughter, Ivy Jade Little. She was born January 9th 2007 to Candace and Chris Little.

I have worked numerous jobs over the past 40 years. I am currently working for WebMD aka Emdeon Business Services in their telecom department. For the past few years I have been in charge of their corporate cell phones for employees all over the U.S

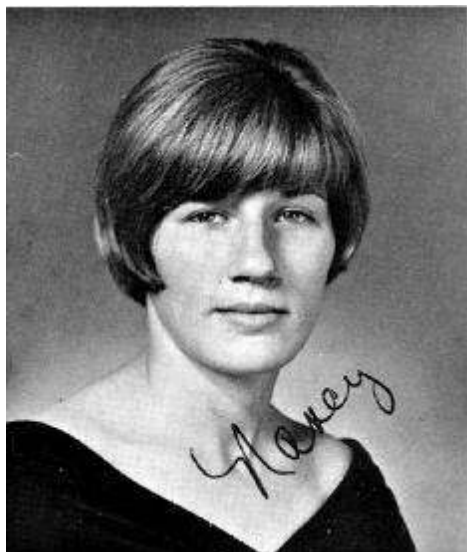

Warren Johnstone – I had to move to Ashland City during my junior year so I graduated from Cheatham County High. After graduating I went to tech school in Louisville, KY. I was hired by AT&T after graduating and traveled the country working on microwave towers and long distance cables. I met my wife, Lois while working in Illinois and brought her south. I transferred to Nashville in 1975 and transferred to South Central Bell in 1977 where I worked until 2000. Lois and I have two children, one girl and one boy and four grandsons.

Linda Edde (Spivey) - I have been a hairdresser for 40 years. I work at Macy's at Cool Springs. No pet, love my yard, love to travel. I have been single for 29 years. I am Looking forward to seeing everyone.

Glenclyff Class of 1967 - Current Bios as of 2007.

Nancy Howell Martin (Nix) - After graduation, I attended the University of Tennessee for one year. At the end of that year, I joined the DuPont Company as a co-op student. I met someone, got married, quit school, had two boys, now 34 and 32. I completed my BS in Chemistry at Salisbury University (Maryland), and joined the DuPont Company again in 1981. While the first marriage didn't last, sons Eric and Kevin are fine young men and have brought two wonderful young women and 3 grandchildren into the family. I had a great career with DuPont, and eventually met my current husband, Cliff. Cliff has two sons also and we are expecting two new grandsons in October of 2007. While still working for DuPont, I completed my MBA at Temple University, and reminded myself how much I love to learn.

In 1994, Cliff and I moved to a small village near Surat, Gujarat, India, to work for an Indian-owned petrochemical company headquartered in Mumbai, helping them with a major expansion of a petrochemical facility there. It was an experience of a lifetime! I was in India for not quite two years when my father became ill and I came home to be a bit closer. I worked on my doctorate at the University of Tennessee while Cliff remained in India. Turns out Knoxville to Mumbai is quite a commute! He remained in India for about 3 years before coming home to what was supposed to be our retirement home in the Outer Banks of North Carolina. It was a bit shorter commute and I was able to live there and enjoy it a bit while completing my research for my dissertation.

When I completed my doctorate in 2001, I joined TCU in Fort Worth, TX in a non-traditional academic role that is a perfect fit! As the Director of the Supply and Value Chain Center in the Neeley School of Business, my job has been to build programs, acquire funding, recruit students, host executive forums, and build relationships with the business community. I also teach, typically in our MBA and Executive MBA classes. I lead study abroad programs to China for our Executive MBA and undergraduate classes and will add India as an option in December 2007. It has been a very rewarding 6 years and I am having loads of fun. Cliff and I finally decided commuting was not what we wanted to do, and he moved to Texas in 2004. He's not crazy about me being in China for the month of May - but stays busy with his 7 bird dogs at our home in Aledo, TX. We have had a wonderful 20 years together and have been fortunate to share work, travel, family, and many ups and downs - but we often talk about how fortunate and full our lives have been.

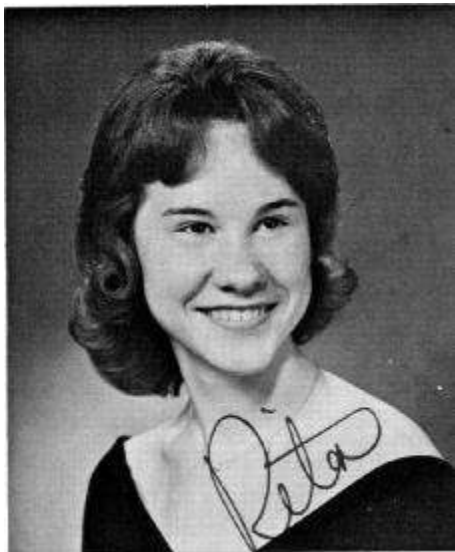

Glenclyff Class of 1967 - Current Bios as of 2007.

James Thomas "Tommy" Johnson - After graduation, I attended Belmont University and graduated in 1971 with a major in Music Education. I married Pat King (GHS '68) in 1969. After graduating from Belmont, I began a dual career. I graduated from MTSU in 1976 with a MAT. I taught choral music at Ewing Park Junior High from 1972 until 1978. I then transferred to our beloved Glenclyff High School, where I taught choral music, piano and guitar from 1978 until 2003 when I retired from teaching. From 1971 until 2003 I also served as minister of music at Una Baptist Church on Murfreesboro Road near the airport.

After retiring from teaching and the church, Pat and I became house parents at the Tennessee Baptist Children's Home in Brentwood. We live on the campus and have six children from age 9 – 15 living in our cottage. It is much like a foster home situation. While challenging, it is very rewarding to help influence some children, who are the products of some bad home situations.

Pat and I have seven children (3 birth and 4 adopted) ranging from age 21 to 39. Our three oldest children graduated from Glenclyff and our four youngest from Antioch. We have six grand children with another due in June.

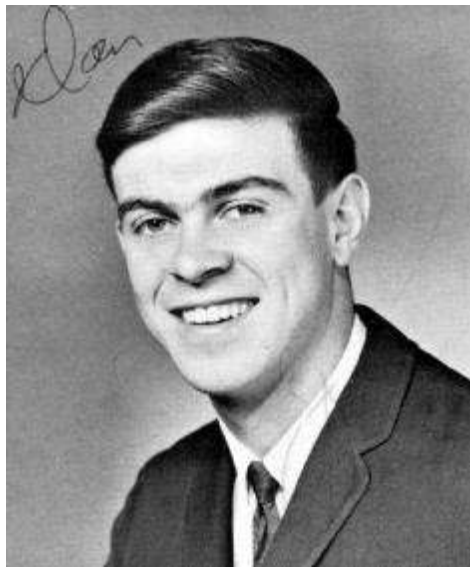

Rita Carolyn Rogers (Felts) - After graduating in the last nursing class from Nashville General Hospital School of Nursing in 1970, I married my husband, Gary Felts, and worked in Intensive Care for 4 years. I returned to school at Vanderbilt and became a nurse practitioner. I have worked in primary care, cardiology and transplant medicine in the years since. I am now semi-retired and working when I want to.

I have been married to the same great guy (now a retired Metro Nashville Police Officer), for 37 years in October. We have a 26 year old son, Brian, who is a paramedic/firefighter with Metro Nashville Fire Department. He's single, so no grandchildren yet!

Current hobbies include camping, gardening, knitting, reading and browsing through estate sales for great finds.

Of what accomplishment am I most proud? I'll have to break the rules and say raising a great son to be independent and productive in these unsettled times as well as remaining happily married to someone I not only love, but actually like!

Glenclyff Class of 1967 - Current Bios as of 2007.

Dan Howard Haynes - Well, after Graduating from UT, I started working for Oscar Mayer in Goodlettsville TN. I stayed with them for 33years, although they were bought by General Foods, then Kraft Foods. During that time I moved several times living in San Francisco, Los Angeles, and Texas. Finally I retired in 2005 and currently live in Orange County, Ca.

I have been married for 37 years to a beautiful wonderful lady (Pat Roberts Glenclyff Class of 68) who gave me three great sons (Sean, Patrick, Chris). Sean, the oldest is married and has two girls (Michaela 5, Savannah 2).

Since retiring, Pat and I have been doing a little traveling going to the KY Derby, New Years' Eve in New York, Mardi Gras in New Orleans, Key West FL, Washington DC, Zion/Bryce Canyon Utah, etc. Prior to that, we got into riding Harley's and have gone to Daytona Bike Week, Sturgis, and numerous other events in Ca, TN, and Texas.

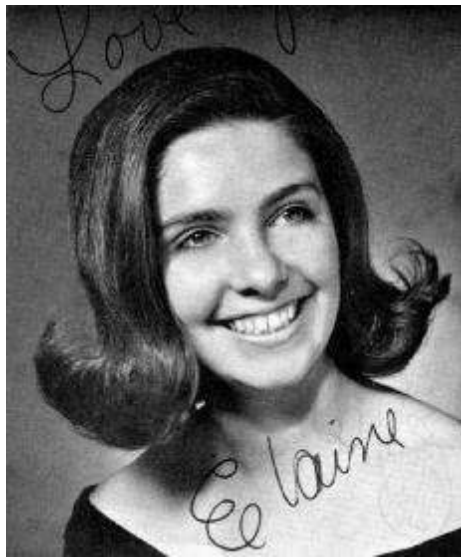

I guess being able to maintain a close family relationship with relatives in TN and my own immediate family during all the company moves was one thing I'm very proud of accomplishing. Pat and I are enjoying our retirement years together in Sunny Southern Ca. It allows us to continue to ride our Harley year round, plus spend a lot of time with our sons and grand kids who live in Northern Ca. Also, we make several trips a year back to TN to see family and of course go to a UT Football Game.

John Charles Lucas - After high school I joined the Air Force and served 4 years. Then I graduated from MTSU with a degree in Physical Education. I was a very active amateur photographer and after getting laid off several jobs, I took a position as the school photographer for Tennessee Tech University. I've been there for 20 years. I have been very active in outdoor activities including hiking and rock climbing. I've always been an active bicyclist and still ride 1200 miles a year or more. I am a very active wood turner and write articles for all the major wood turning magazines.

I've been married once and have one son who starts college this fall. I have a really cute dog and she's part terrier, part shiatsu. I live in Baxter, TN.

Glenclyff Class of 1967 - Current Bios as of 2007.

Barbara Elaine LaVoi (Ganick) - Elaine Ganick is nationally known as a respected broadcast journalist and popular television personality. From 1981 through 1987, she was seen by millions internationally as the Southeastern Correspondent for the highly successful television program "Entertainment Tonight". More importantly, however, she has developed a reputation as a knowledgeable and trusted journalist who has the ability to get the most out of an interview. Her relaxed, poised approach has earned her praise for a variety of revealing profiles on celebrities ranging from Dolly Parton and Red Skelton to Garth Brooks and Billy Graham.

Such ability can only be nurtured through experience, and Elaine's story of success is no exception. Her first opportunity came relatively early when she auditioned for a local TV job just one short week after her graduation from college. She landed the position as Co-Host of the long running "Noon Show" on WSM-TV in Nashville, Tennessee. For eight years (over 2,000 live shows), she hosted the popular mid-day program; and from 1976 through 1981, she produced the program as well. During her tenure at Nashville's NBC affiliate, Ganick also wrote, produced and anchored the early morning news for the station (1977 - 1980), and was an air personality on WSM radio (1973-1976). In fact, Elaine was the first female disc jockey in Nashville.

In 1989, "Entertainment Tonight" underwent format changes and a decision was made to discontinue using regional correspondents and base the show entirely in Los Angeles. Being a Nashville native and the mother of three children then under the age of 5, Elaine opted to stay in her hometown and she became Vice-President of Artist Development for her husband's artist management firm, The Woody Bowles Company, Inc. During her three years in that position, Elaine played an instrumental role in the development of the careers of major country music artists such as Moe Bandy, Kix Brooks (Brooks & Dunn), and The Judds, among others. In fact, Wynona Judd lived with Elaine and her husband for a year following her graduation from high school.

In 1990, Elaine formed Ganick Communications to provide full-service marketing and communications strategies. The company specializes in corporate video production, communications consulting and training, and provides services in other areas such as broadcast production, writing, advertising, public relations and marketing. Additionally, in February of 1990, Elaine returned to national television. For five years, she served as the host of "WellnessLine" for the Odyssey Cable Network. The live show (which was broadcast weekly to 25 million homes across the United States) discussed the issues surrounding addiction and recovery, as well as emotional, physical, and spiritual health. During the first six months of 1995, Elaine completed a special assignment as a reporter and segment producer for TNN's popular program "American Skyline". Since 1995 Elaine has been hosting a series of cooking shows for Nashville's PBS affiliate WDCN, and she is the "voice" of HomeCenter Network, a popular cable program devoted to real estate in Nashville.

In October of 2005, Elaine was named to the International Board of Directors of the International Women's Forum's Leadership Foundation. In that capacity, she has traveled across the country providing communications and leadership training seminars for executives in top U.S. companies such as Wal-Mart and FedEx.

During her 30-year career in the communications industry, Elaine has spoken to and consulted with scores of corporations, groups and organizations. She has conducted over 10,000 interviews with celebrities, newsmakers, experts in every field, and with ordinary people whose stories were often extraordinary. She has shared the podium with such luminaries as Oprah Winfrey, Mary Hart, and Lauren Bacall and she has shared her realistic approach to life, communication, and success with thousands of appreciative audiences! On the personal side, Elaine is the mother of three children: twin daughters Erin and Kristen, age 23, and a son, Will, age 22.

Glenclyff Class of 1967 - Current Bios as of 2007.

Judy Ann Miller (Ozment) - After graduation from Glenclyff, I worked at First American National Bank for several years training new tellers for all the different Nashville branches.

I've always lived within a 10 mile radius of where I grew up at 90 Antioch Pike, my Dad still resides there, but I lost my Mom to cancer last Summer, June 2006.

I was married for 23 years, but I've been divorced since 1992. I stay quite busy with my work, I've been a Realtor in Nashville for more than 30 years. I've been a multi-million dollar producer for many years also. I have sold lots of new construction and subdivisions for Builders. I also enjoy interior decorating, my work is very time consuming but also very rewarding.

And last but not least I have been blessed with two wonderful children, I have one Son, Dave Ozment, he just turned 37. He graduated from the University of Alabama with a Master's in business. He and his wife live in Atlanta.

I also have one Daughter Shannon Johnson she is 33, she cooks on TV and has published several cookbooks and does some modeling and she is the Mother to my only Grandchild, Clay and he is 12 yrs old. They both reside in Nashville.

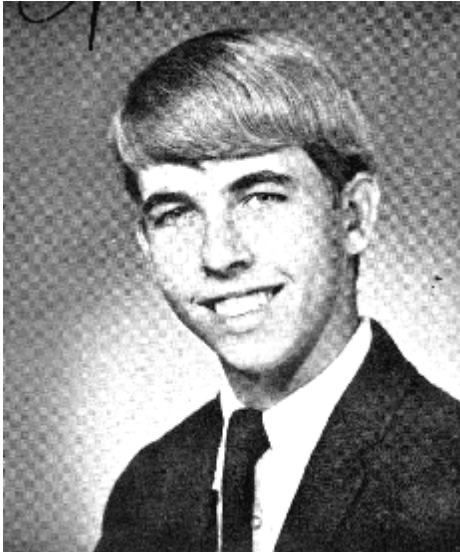

I also love to travel, Hawaii being my favorite, I also enjoy trips to Las Vegas and out West, Florida beaches or just a relaxing weekend get-away...I'm ready to go!

And last but not least I have to mention my best little friend in the world, my miniature black schnauzer, "Gracie".

Linda Louise McGee (Butler) - I retired from Cincinnati Bell Telephone in 1996 after 25 years as a Customer Service Rep. I was living in Florence KY at the time. I was called back in 1997 and worked till 2001. Since then I moved to Lake City, Florida (March 2006). I am currently unemployed and enjoying the warm weather and sunshine! I enjoy traveling and have been on several cruises and love them. I also enjoy camping and go every chance I get. I have a daughter (age 34) who lives in Florence, KY and a step-daughter (age 44). I also have 2 grandsons who live in Jackson, Tennessee. I have a wonderful husband named Bill who I have been married to for too many years to think about. I don't think I will be able to attend the reunion but I send my best to everyone and hope to hear from some of you soon. Bye for now and good luck with the reunion.

Glenclyff Class of 1967 - Current Bios as of 2007.

Michael Larry Kelley - Married Helen Barnes from Hendersonville. This Sept 27 we will be married 39 years. We've lived in Sumner County since 1972, currently in Gallatin. We have 2 daughters, Tiffany and Tanya, ages 37 and 34 and 7 grandchildren, ages 9, 8, 7, 6, 5 and 2 yr old twins.

I've been working fulltime 33 years for the Air National Guard at Donelson Pike and Murfreesboro Rd. It has given me the opportunity to travel all over the world, Germany, England, Korea, Philippines, Hawaii, Ecuador, and Qatar for 4 months in 2004 supporting the Iraq war.

Accomplishment I'm most proud of? Hum-m-m-m, aside from wife, kids and grandkids, it would have to be, in case you haven't heard, getting our band **"The Shadows"** back together to play at this reunion ! Remember we played at many GHS dances, after football game garage parties, the Thompson Lane skating rink behind Dairy King, and a couple of rock 'n roll shows that came through town. We broke up in 1968 after 4 years and haven't seen each other until I came up with this crazy idea a few months ago. We are really looking forward to this, it oughta be a HOOT!!!

The Shadows

Linda Faye Ralston (Simmons) - After graduation from Glenclyff I went on to David Lipscomb College and graduated from there in June of 1970 with a degree in k-9 education. I married my high school sweetheart Rodney Simmons in June of 1969. Over the years we were blessed with two sons Brad and Brian now 35 and 30 years old. Both are married and Brian has three children Taylor, Tori and Andrew. They are the joy of my life. Over the years Rodney and I have lived all over Nashville, Shelbyville, Miami and now back to my Dad's family farm for the last 20 years in Chapel Hill. Shortly after moving home I went shopping in the little town of Bell Buckle and surprised everybody by buying a building. I ran a shop there and ended up making jelly to sell in it. Now we own a family business named Bell Buckle Country Store Inc. We make four brands of food products "Captain Rodney's", "Rose & Ivy", "Simplify", and "Bell Buckle Country Store". They are available in gift shops and grocery stores all over the US. Its fun working with the whole family and living close together. My parents are 2 miles up the road and we all get together often. Life is good.

Glenclyff Class of 1967 - Current Bios as of 2007.

Shirley Ann Wilkerson (Lemoine) - after high school graduation, I attended Falls Business College and received a certificate in secretarial studies. One year later, I married David Lemoine on 05-25-68, which will be 39 years ago this May!! We moved to New Orleans where he worked on the Saturn rocket project for Boeing and eventually helped put Neil Armstrong and Buzz Aldrin on the moon for the first lunar landing. Then, Uncle Sam called and he joined the naval submarine force, which kept him out of Vietnam, but also kept him away from home for long stretches at a time. During his navy years, we lived in Rhode Island, Connecticut, Massachusetts, Maryland, and, finally, and my favorite, Charleston, South Carolina. For a girl who had, prior to marriage, lived her entire life in Woodbine in the same house, this was quite exciting!! While David was out at sea, I went back to nursing school in Charleston and worked there until our first child was born in 1977 when I quit work to stay home and be a full-time mom. It's a good thing, too, because 3 more children followed in rapid succession. When David got out of the navy, we moved to St. Louis where he worked for Monsanto, transferred to Charleston, W. Va. for 5 years, and then moved back to St. Louis in 1988, where we've lived ever since. Our 4 children are: Joe, age 30, Aimee, age 27, Richard, age 26, and Sarah, age 23. The youngest finished graduate school in May, so all are through with college and pursuing their careers. Joe is a civil engineer, Aimee an accountant, Richard is a computer and electrical engineer, and Sarah is a social worker. Aimee (husband Joe) and Richard (wife Becky) are married and have given us 2 lovely granddogs. No grandbabies yet, but I'm hopeful there will be someday.

As the kids got older, I returned to college and studied medical transcription as I felt I had been out of nursing for too long to get back into that field. Transcription is a good fit for me. It combines my nursing background with my newfound interest in computers and word processing. I've been at my present job at St. Luke's Hospital in St. Louis for the past 9 years, and plan on staying here until retirement. When I do retire, David and I hope to do some long, overdue traveling. I also look forward to pursuing hobbies of reading, sewing, quilting, cross stitching, and, my new passion, rubber stamping. I've actually become a demonstrator for the Stampin' Up company and enjoy that immensely. There just aren't enough hours in the day to do everything I want to do.

I'm proud of the fact that I went back to school in my 40's and kept up with the younger students. It was actually fun going back to school because I wanted to, not because I had to. In fact, I did well enough that I was inducted into the Phi Theta Kappa scholastic sorority for junior colleges. Not too shabby for an old broad!! We've been blessed to have wonderful and supportive friends throughout the years, so I don't want to forget them. I'm looking forward to reacquainting myself with my Glenclyff classmates, and hearing their stories.

Glenclyff Class of 1967 - Current Bios as of 2007.

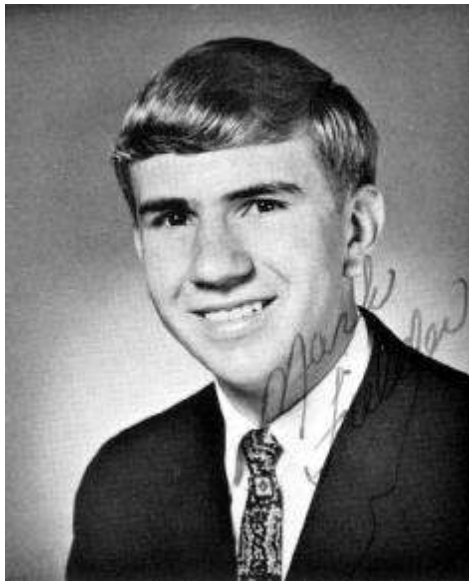

Catherine Elaine Hill (Melby) - After high school, I joined several of the 1967 grads as a freshman at Middle Tennessee State University. In spite of changing majors several times, from Math to Science, to History and finally settling on English with a minor in Secondary Education, I graduated in just 4 years, 1971. I worked on my Master's degree for almost 2 years while teaching freshman composition at MTSU after I received an assistantship.

I left MTSU and Tennessee in 1973 and moved to Carterville in Southern Illinois. There I found my first teaching job, and taught Language Arts, Spanish, Journalism and American History for 6 years at Malan Junior High School. I married David J. Melby, a clinical psychologist and CEO of a multi dimensional human services agency that serves 2 counties in Southern Illinois in 1976. Our son, Benjamin David, was born in 1977, and after his birth, I became a stay-at-home Mom for about a year.

In 1978, I decided to launch a new career. Following in the footsteps of my Dad, I became a real estate salesperson. I was hired by Century 21 House of Realty, first as an agent, then because of my teaching background as a trainer for the 2-office company. In 1982, I bought my first 2 real estate offices, and began a path that has resulted in a great deal of personal satisfaction and recognition of my efforts in the local community. We are the NUMBER ONE company in sales production in the Midwest states of Missouri, Nebraska, Iowa, Kansas, and the southern 2/3 of Illinois outside the metro Chicago market. In April 2006, I decided that I wanted to cut back on my obligations and enjoy life a little more, travel, etc. with my husband. I sold my business and now I work as a manager and trainer with reduced hours and stress.

I am so proud of my son, Ben, 29 who owns his own property management business, and my husband, David, who just retired as CEO of Franklin Williamson Human Services after a distinguished 32 -year career. I come back to Nashville occasionally to visit my brothers, David and Houston and his family. Houston still operates my Dad's real estate brokerage business, Ed Hill Realty on Nolensville Road. I guess it is in our blood!

Glenclyff Class of 1967 - Current Bios as of 2007.

John Marcus "Marc" Fielder - After high school I did three semesters at MTSU studying Industrial Management, while working at the Boy's Club part time. I transferred to Columbia State and swapped majors to Architecture and Building Construction. Got a few hours behind being a junior and got the call from Uncle Sam. Rather than run around in the jungles and rice paddies of Southeast Asia I opted to join the Navy. I had a guarantee from the recruiter to be assigned to the Sea-Bee's (Navy Construction Battalion) after boot camp. During boot camp I was told that the Sea-Bee's was full and the USN was in need of Aviation Electronic Tech's (never believe a recruiter)!

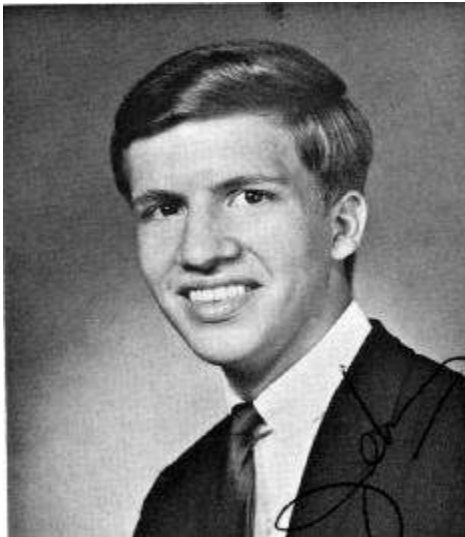

Upon completion of service I was employed as an electronics tech and attended Nashville Tech at night studying Architecture & Building Construction. I was determined to be employed in the Construction Industry. After three years or so of being an electronics' tech I finally landed a job as a draftsman designer with a design build general contractor. Worked thru project co-coordinator, estimator to project manager. Also met and married wife #2 (still going strong after 24 years together)! Was blessed with a daughter, who after a couple of years at Auburn came back to town, and is now a senior at Belmont.

In 1988 I became a partner in a start up Contracting firm which was hit hard by the recession. Went to work with a commercial and industrial concrete contractor and later became a partner (one of my partner's was Bush Sneed; husband of Glenda Gibson, small world). At some point I had a dream to retire at 55. Sold my interest in the company and retired at 56.

I joined the Nolensville Volunteer Fire Dept. a couple of years ago, became a certified, "First Responder" (we try to keep victim's alive until the Paramedics arrive) and currently serve as a firefighter, first responder, operating engineer and Maintenance Officer. I got bored with retirement and I'm currently managing a small grading and excavating business.

I was shocked to hear the number of our classmates that were deceased. I'm friends with Elaine Hill's youngest brother Houston. When I told him that almost 10% of my classmates were no longer with us, he replied, "Heck, Marc you're almost sixty"! My response was, "I want to be there when you tell your sister that"!

Glenclyff Class of 1967 - Current Bios as of 2007.

John Marvin "Johnny" Poole - After graduation I spent 3 erratic years in college before figuring out I wasn't quite ready for that life. So, I got married instead - much better idea. After 14 really great years and 3 beautiful kids, my wife passed away in 1985. The Lord and I kept really close contact for the next several years. I married again in 1992. My family grew from 3 to 6 young'uns, 5 of whom were grown, leaving me a new 10 year old. He is now 24 and about to finish college. Now living in Murfreesboro, I retired in March of 2006 and went back to work in May. With 9 grandkids and still a lot of living to do, I found I still needed a little more income. I've been able to live out some dreams like going to Wyoming and working on a cattle ranch and plan to do more as long as I'm blessed with health. Even through the bumps and scrapes, these have been a very blessed 40 years.

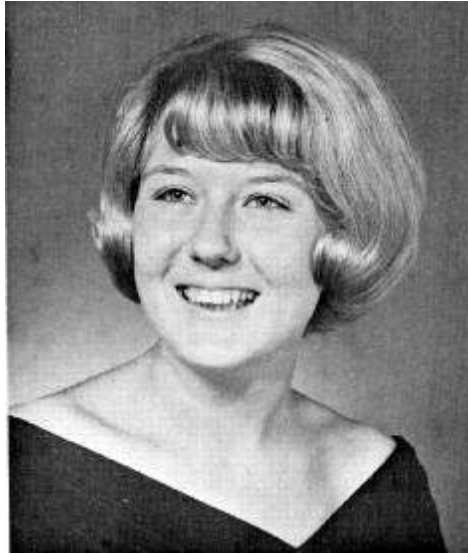

Cathy Lynn Foy (Green) - After graduating from Glenclyff, I attended the University of Memphis and graduated with a BS in Education. Several years after marrying, my family and I moved to Texas where I earned a MS in Counseling from Sam Houston State University. I've worked in the field of education for the past twenty five years.

My husband, Charles Green is from Clarksville, Tennessee, and we have been married for almost thirty-six years. We have two daughters, Christy and Courtney. Charles is retired from the insurance business, Christy is a patent attorney in California, and Courtney is an educational diagnostician with a local school district. We've lived in the Houston, Texas area for the past twenty years. I'm currently a high school counselor, but hope to say that I'm retired within the next two years. Christy and her husband, Scott are the proud parents of a seven month old baby girl, Lydia Emma. I'm the proud grandmother, who's called "GiGi"! Courtney recently married a great guy from England, named Chris, on June 22. Chris and Courtney are buying a home just a few blocks from us in Houston.

My husband and I are enjoying traveling and are looking forward to my retirement so that we can travel even more. Our favorite mode of travel is a cruise ship. We have been taking about three cruises a year and are looking forward to making a trans-Atlantic crossing for our retirement celebration.

Glenclyff Class of 1967 - Current Bios as of 2007.

Marsha Dee Thomas (Harrell) - I was married for 7 years and in that time I had two children. Then I divorced and stayed single for a few years then met a wonderful man and married him and moved to Chattanooga and lived there for 5 years and we had 2 children. Then we moved to Sioux Falls, South Dakota in the winter of '86 and I was there until 2004 (Tom died of Colon Cancer in 2001).

In the meantime my family had moved to Cookeville, first my brother and his wife then my sister and her husband then my parents so I finally made it in 2004. It was hard to leave. I still have a son and daughter in law up there in South Dakota and they now have a son. I have 4 other grandchildren ranging in ages 15 to 2 with the 6th grandchild due this December. My oldest is in the National Guard in Nashville but he and his wife and kids live in Clarksville. Then DeAnna and her husband and son live here in Cookeville, Kathy and her husband Jamie (no children yet, she says she has to pay off her school debt, she's a lawyer) they live in Wichita, Ks.

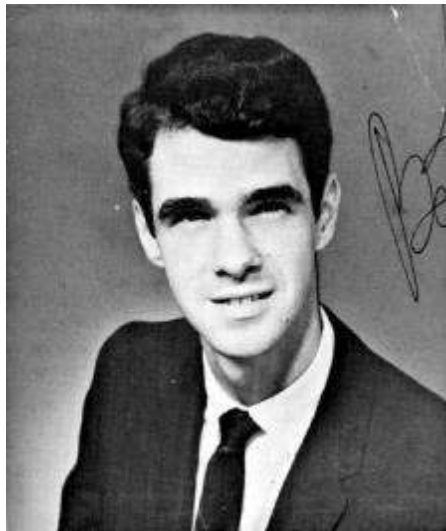

In South Dakota I was a Certified Pharmacy Tech for Cigna Insurance and when I moved to Cookeville I decided it was time for a change so I now work in the collections dept for a local dentist.

I'm also a Breast Cancer Survivor. I've been cancer free for a little over a year. Life is good!!!!

Peggy Jean Armstrong - Since high school I have had 3 major jobs. I worked at South Central Bell as an information operator later changed to directory assistance operator 1967-1972. Then I worked at Vanderbilt University Medical Center as an outpatient billing clerk 1973-1978, My longest job was at Metropolitan Nashville General Hospital as an emergency room register clerk, business office clerk and as a cash application clerk 1978-2002. My hobbies and interests are bowling, camping, fishing, reading & tennis. I love to read anything by NORA ROBERTS and I love to work on MY SPACE layout and watch BIG BROTHER, BOLD & BEAUTIFUL/DAYS OF OUR LIVES & THE YOUNG & RESTLESS. The one best thing that has happened to me is staying in contact with other classmates like BECKY BELL, DONNA BROWN, DEBBIE HAGGARD, SYLVIA LEE, AND JUDY MILLER. I've never married. I guess I was too mean!

Glenclyff Class of 1967 - Current Bios as of 2007.

John Marvin Young III- 40 years later I still think our class of 67 rocked and was the last great class to come out of Glenclyff.

Left Nashville in 1971 to work in radio in Houston. Returned to WSM Nashville in 1975. Moved to Atlanta in 1978 and have been here ever since, quickly realizing taking every offer in radio would ruin our furniture with constant moves.

In Atlanta I ran what became the #1 radio station for decades as well as working for Ted Turner as main voice on all his projects from TBS to CNN, TNT, TNT Latin America and CNN International. I felt him in 1995 thinking for years he was fun only to realize he was insane but I still like him.

I've been self employed since 1987 with 31 voicing 31 out of town television stations news promos (including WTVF, Newschannel 5 in Nashville), radio stations, and commercials. So, basically, I just talk all day in a state of the art studio in my home.

3 Children: 2 in Los Angeles. My daughter is a nurse practitioner in a LA hospital emergency room preparing to go to med school. A son handles music licensing for Activision in Santa Monica. A second son is in Atlanta working for one of the natural gas company's serving Atlanta.

Great marriage to a lady I went to college with. We have recently purchased some property on Murray Lane in Brentwood with plans to build a home and move back to call Nashville home within a year or so.

John "Johnny" William Cobb - Wow has it really been 40 years / 4 decades? Me? I took an extended stay at MTSU and UTN before stumbling into Financial Planning. A CFP degree and 37 years later – I love my work. In addition to a private financial planning practice, I taught financial planning, as an adjunct professor, at David Lipscomb University for six years. I have a lovely wife named Carolyn, and we have a son who is a physician in St. Louis. Carolyn and I enjoy traveling, hiking and the outdoors. We have had a lot of fun working on the GHS67 Reunion Committee, and have renewed multiple friendships. I'm looking forward to seeing lots of GHS friends and classmates, and the key line for the evening will probably be "do you remember when?".

Glenclyff Class of 1967 - Current Bios as of 2007.

Claudia Carter (Hargrove) - I married while I was still in High School and had 3 children by the time I was 21 years old. I received my GED Diploma in June 1967 thanks to my wonderful, aggravating mother!! I divorced and became a single Mom at age 30. In 1985 I married the most wonderful Christian man and my life has become a fairy tale. My husband Tim Hargrove became Dad, He walked the girls down the aisle, and he was there when Candi's babies were born. He was there when Robert and Melissa graduated from college and when Robert got married and when Melissa was deathly sick. After years of trying, God blessed us with a baby girl in 1990, and then in 1993 he SURPRISED us with another baby girl.

Tim and I have been married 22 years this month. We have 5 wonderful children: Robert is 41, he and Lisa have 2 children Isabella 5 and Nathan 2 ½. Candi is 37; she and Clark have 2 children, Emilee 12 and Taylor 9. Melissa is 36; she and Art have a daughter Amber 17. Stephanie is almost 17, an avid softball player hopefully she'll get a scholarship to UT. Elizabeth is 14, she sings and plays the piano and has been accepted into the Youth Performing Arts high school in Louisville.

I have been a Realtor since 1985 and love it. Tim is Vice President of Kentucky Association of Electric Cooperatives. We belong to First Baptist Church and are very active. We moved into our new home in June of 2004, it is beautiful. Our life is busy but wonderful!!!

Deborah Lynette Haggard (Wair) - After high school, I attended cosmetology school, worked several yrs with three or four of the gals of '67, throughout the years I married twice and divorced twice.. I have 3 children (2girls, 1son) and have been blessed with 3 grandchildren (boy-Cooper, 13yrs, girl Savannah, 10yrs, boy Jaxson, 26months, and expecting the 4th on Sept 25, a boy to be named Carsen. I live in the country, near Pleasant View, about half way between Nashville and Clarksville. Over the years I have worked a variety of jobs; secretarial, food and beverage with hotels and schools, landscape/irrigation, presently I am in retail sales with Readers Digest/Books Are Fun covering all of the Middle Tennessee area, corporate division.

I have been happily divorced for the past 17 years, enjoy spending time with family, getting together with friends, camping, boating, sewing, and now and then i get out and kick up my heels! I am most proud of the fact that several of the girls I graduated with still manage to make time for our get together at one another's homes (at least every couple of months) share a day of Christmas celebration every year at my parent's log home next door to mine and my girls. You know who you are!!!!

Glenclyff Class of 1967 - Current Bios as of 2007.

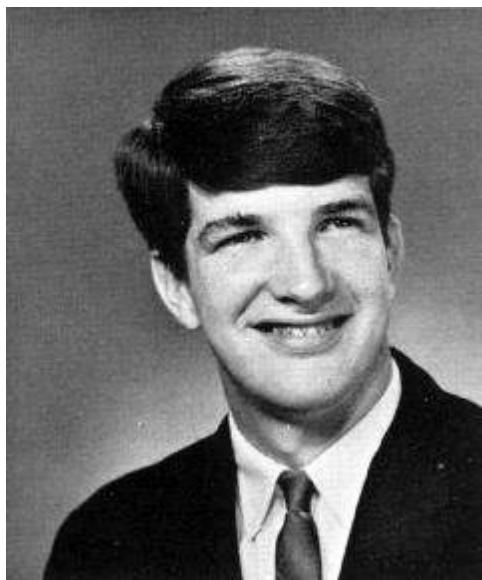

Sherry Fitts (Harlow) - I went to Austin Peay State University for 2 years and then I got married. For the past 15 years I have been married to Gene and we dated for about 4 1/2 years before that. The only child Gene and I have together is Abby - a Boston Terrier who is 15 years old. Gene worked for 25 years for Jockey as a sales representative and then he found a job with Ashworth and Callaway. He now sells golf apparel and golf equipment and has been with them over 6 years now. He likes selling golf products a lot more than underwear. (Of course, I kind of liked all that free underwear). I was married before Gene and I have 2 daughters - Rachel - 30, and Amanda - 22. Rachel went to MTSU 4 1/2 years and then graduated with honors from ITT with a degree in Computer Information Systems. Amanda went to Beauty School and graduated about 2 years ago. She is 7 months pregnant at this time and is due in Sept. but by the reunion date I may already be a grandmother. My granddaughter's name is going to be Aaliyah.

I work for State Volunteer Mutual Insurance Company and on Sept. 11, I will have been there 18 years. We handle malpractice insurance for doctors. It's a great company and I really do like working for SVMIC. I taught Country/Western Couples and Line Dancing for about 14 years, just part time. Teaching was just something I got into by accident and it was fun, good exercise and helped with expenses. Right now in my spare time, I make jewelry. I also weigh people for Weight Watchers on Monday nights.

We are members of Tusculum Hills Baptist Church and have a wonderful Sunday School Class. We do a lot of things with our class members and some of our best friends are in that class. I also get together with about 7 other women a couple of times a year that I have been friends with for a very long time, 4 of these I've actually known 57 years and counting. Not many people can say they have been friends for over 57 years.

My life is never dull - sometimes I wish it were a little more boring and a lot less drama. If you don't remember me from the '67 graduating class, it's because my family moved the summer before my junior year and I went to Antioch my last 2 years of high school

Glenclyff Class of 1967 - Current Bios as of 2007.

Richard Charles "Rick" Bernhardt - After graduation from GHS and following a year of junior college basketball, I was privileged to marry my love and soul mate Linda Hart ('66). We have been married for 39 years and have two wonderful and loving daughters and now two sons-in-law and 3 precious and very special grandchildren (granddaughters ages 5, 2 and a grandson age 6 months). For the first 14 years of our marriage, one or both of us were in college with me graduating from Auburn (B.S. in Economics) and Ohio State (Master of City Planning) and Linda from Peabody and the University of Florida.

Professionally, I have been able to follow my passion as a town planner for over 35 years, starting my career in Nashville and then as the Planning Director in Hopkinsville-Christian County KY, Gainesville FL and for 18 years with Orlando FL. I returned to Nashville as Planning Director in 2000 and enjoy the challenges and opportunities of working back in the old home town. I also worked in the private sector as director EDAW's Town Planning Studio. My work has focused on creating sustainable communities, neighborhoods and places through the use of traditional design techniques. These techniques result in diverse, mixed-use, walkable communities based on principles of town building that have been proven through the ages. I have been honored to serve on our national professional organizations including the American Planning Association and the Congress for the New Urbanism.

Over the years, I have had many hobbies. Linda and I enjoy attending sporting events, dinner with friends and traveling, with no schedule bed and breakfast trips being our most favorite. I have enjoyed playing golf, collecting baseball cards and Stephen King books. There is little better than attending a NASCAR race in Daytona, Atlanta, or Bristol. I love to read and garden and much of Linda and my life together has revolved around renovating old houses in wonderful downtown neighborhoods. We especially love living close to downtown in East Nashville and the ability to walk to dinner, the park and a Titans game. My current means of relaxation is through woodworking and motorcycling. I really enjoy my wood shop and its man cave retreat. However, Linda says nothing compares to my motorcycle obsession. After several years with a BMW cruiser, I recently acquired a BMW sports touring bike to better take advantage of the great roads in the area. I hope to see you in the mountains!

Glenclyff Class of 1967 - Current Bios as of 2007.

Martha Louise Hoskins (Parker) - After graduation I got engaged to John (remember John?) Parker (went to Overton). I worked for a year and John and I got married in April of '68 after he got out of Air Force tech school. We were stationed in California for a year before he received orders overseas. We came home in April of '69 and John left for a 3 year tour of duty in Seville, Spain. I worked for 2 months until I saved enough money to join him. Spain was a blast! We lived there for about 3 years. In June 1970 I gave birth to a beautiful baby girl, Jennifer. My father passed away in April of '70 and because I was pregnant I wasn't able to attend his funeral. That was really hard because my dad was very special to me.

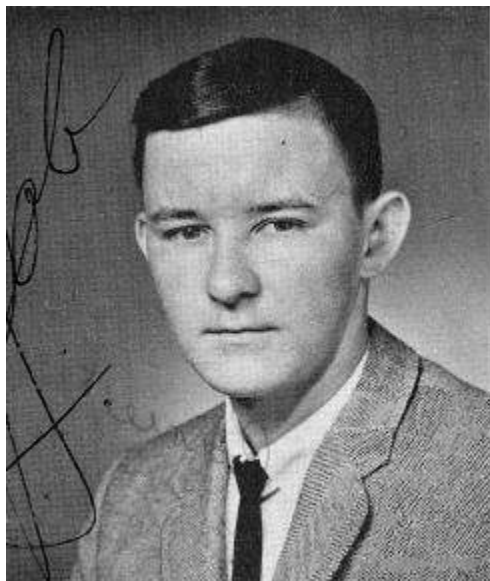

We returned home in the spring of '71 and after a brief visit we went to Denver, Colorado for 6 months, then on to Shreveport, Louisiana where our oldest son, Devon was born in '73. John decided that with 2 children the Air Force was not the best place to be so we left that life behind and came home to Nashville. We didn't stay in Nashville long however because John found a job at Arnold Air Force Base near Manchester, TN working for the Government Contractor there. Our baby boy, Wes was born here in 1978 and now Manchester has been our home for almost 34 years.

John joined the 118th Air National Guard in Nashville shortly after we moved to Manchester and he's been all over the world. His last deployment, before he retired in April of 2005, was to Iraq for 6 months and believe me when I say I was more than ready for him to give up that job!

I have been working at Arnold now for about 20 years. I'm a buyer (procurement specialist) for ATA and it's a job I truly enjoy. However, like John I am more than ready to retire! The kids are all grown, Jennifer has her master's degree in education and teaches 5th grade in Portland. She's married to her high school sweetheart, an engineer, and they have 2 beautiful children, ages 12 and 11. Our oldest son Devon is a mechanical engineer and also works at Arnold. He' married to a "northern girl" from Michigan and they have 2 gorgeous daughters ages 7 and 5. He's currently working toward his PHD in engineering. Our baby, Wes is Professor of Jazz at North Carolina State Univ. and is getting married in July to a lovely girl from Fairview.

And yes, I'm still married to my high school sweetheart, John. I guess we are more in love now even after 39 years of marriage! There is nothing I would change about my years since high school except that maybe I would have made more of an effort to finish my degree. Raising 3 children was just more important and I wouldn't take anything for that experience. Retirement at 60 is our goal and I can't wait! I'm ready to PARTY!

Glenclyff Class of 1967 - Current Bios as of 2007.

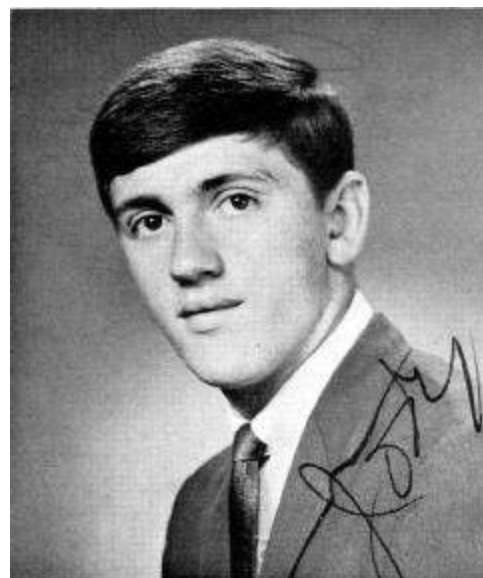

Robert Drue Anderson - Just a little info for you. After graduation I went to the military, discharged in 1972. I got married in 1971 to Donna. We returned to TN for a few years had a two kids, a boy and a girl. Kicked around in TN until 1977 then moved to Los Angles CA area had another kid, another boy. Started driving a truck. Moved back to Waverly TN in 1990. Retired from driving in 2005. Now work for a small aluminum company in Waverly area.

Sandra Ellen Anderson (Dozier) - I graduated from David Lipscomb College and have been teaching at Goodpasture for 18 years. I have been married to Buck Dozier for 38 years and we have two children and four grandchildren. Buck is running for mayor of Nashville this summer. We have lived in Madison for 20 years.

William Dorcy "Jody" Bailey - What have I been doing for the last 40 years? I went to Vietnam from 6/69 to 6/70. I got out of the Army. I went college and have two degrees, one from UT Associate degree in Liberal Arts and Trevecca College a B.S. In Sales. I have been in sales for all these years. I am currently with Signtronix as District Manager. I look forward to seeing everybody

Glenclyff Class of 1967 - Current Bios as of 2007.

Glenda Lynn Gibson (Sneed) - I graduated from the University of Tennessee in Knoxville with a B.S. degree. I applied and was accepted in sales with Xerox Corporation and moved to Charleston, S.C. My first territory was Hilton Head Island and Beaufort, SC. In my years in sales for Xerox I lived in Charleston, S.C., Hilton Head, S.C., Mount Pleasant, SC., Savannah, GA., and Jacksonville, FL. I then took a Sales Manager position with Savin in Corpus Christi, TX. So until the age of 35 I basically was single and lived all over the place. I had many great adventures and met tons of interesting people and learned so much.

Then I moved back to Nashville to regroup and decide where in Florida I would live next, but I met and soon married a Nashville guy, Bush Sneed, a structural engineer who owns Charter Construction. We've been happily married 21 years now (yes I was an old maid until the age of 36) and are also now happily sort of retired for 14 years. (He is still part owner in the company). We love living on the ocean here in Key West where we spend most days boating or fishing or scuba diving. We also spend a lot of our time traveling in our boat and have spent the last few summers cruising the out islands in the Bahamas.

Some of our favorite trips, let's see.....We just returned from a two week cruise in Europe with ports in Italy, Croatia, Spain and France. Italy is fabulous!! I can't wait to go back. Venice and Tuscany are incredible. We also took a cruise in the Greek Isles the year Hurricane Georges hit Key West 1998 <so we worried the entire time we were gone> and one in March 2007 to Belize and Honduras and one through the Panama Canal in 2004. Another memorable trip was 3 years ago to Tahiti. That was truly an incredible place. We stayed in a hut built out over the ocean with a glass floor where you could watch the fish swim around, and we did a shark dive where the dive master actually fed them by hand. That was great fun!

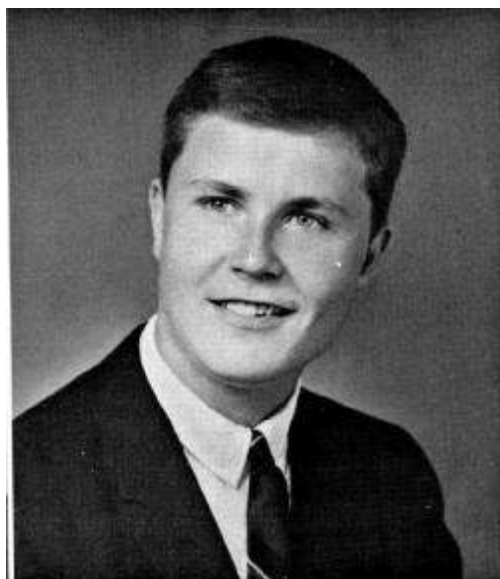

Bush and I don't have any children but I do have a beautiful stepdaughter, Jane, and a handsome little grandson who is 4 years old who calls me GiGi (for Grandma Glenda of course). He loves to visit us here in Key West and has already been snorkeling on the coral reef. In addition, at the ripe old age of 4 he's already been on 2 cruises with GiGi and Granddaddy!

Don't know what else to say, except I feel so blessed to have such a happy and wonderful life. Both my parents are still alive and doing well. I know that is unusual at our age!! My older brother, Mike Gibson <Glenclyff class of 1965> is still alive and kicking and living in Nashville as well as my younger brother, Craig Gibson <Glenclyff class of 1970>. Life is very good! Hope we're all around to see our 50th reunion.

Glenclyff Class of 1967 - Current Bios as of 2007.

Margie Christine Anderson (Stapel) - My husband & I now live in Foley, Alabama. If you are not familiar with Foley, it's about 6 miles from the Gulf of Mexico and Gulf Shores, Alabama - commonly know as the Redneck Riviera. We moved to Foley about 4 years ago and live in a golf community, and enjoy it very much. Most of our neighbors are out of towners as we are. I work part time for two Met Life agents. My husband (Al) is retired from Western Electric (who became AT&T which became Lucent Technologies). His main job is keeping up with the yard and the house. He also volunteers 1 day a week at the local Foley Train Museum. Also in our family is a cat name Molly - she is a Calico and about 1-1/2 years old. Over the years, I raised my husband's son (Scott). Scott is now 26 and father of our grandson Blake who is 4 months old. We try to get to Nashville as much as possible to see our family. We enjoy of life in Foley - its a very laid back town, and we don't have the traffic or the sleet and snow that Nashville has. If you're ever in our area, please look us up, we'd enjoy seeing you.

Ronald "Ronnie" Wayne Smith - Let me give you a little personal history about myself. Education - B.S. MTSU 1973, M.S. University of Texas 1976, M.A. University of Hawaii 1985

I married Katharine Horgan in 1986 and we have 2 children, Calley Makana Smith, 17 years old and a freshman at California State University and Austin George Smith, 15 years old and a sophomore at Chico High School. This is my 3rd marriage. Since 1973 after graduating from MTSU I lived in Austin, San Antonio and Houston, Texas for 8 years. Then I moved to Oahu for 6 years and to the Big Island of Hawaii until 1991. I moved to Chico, California in 1991 - about 100 miles north of Sacramento where we raise our family. We are close to the Pacific and live in the foothills of the Sierra Nevada Mountains. I currently own 3 counseling centers in Northern California where we treat family disorders. I am hoping to retire in a couple of years and move to our cabin located in Lassen Volcano National Park in Northern California.

Glenclyff Class of 1967 - Current Bios as of 2007.

Retta Josephine Murray - After graduating from Glenclyff, I attended MTSU and received a BS in Computer Science with a minor in Accounting. At the time I graduated, I was the only person in the state with that combination.

I went to work for National Life Accident Insurance Company where I was a programmer. I stayed there for 12 years until American General bought the company. After that I worked as the office administrator for a small company until the two partners had a disagreement and dissolved the company. Then, I went to work for General Electric. There I had the opportunity to travel and went to New Zealand, Australia, and Belgium. I also worked with people all around the work. The last group was a group from Estonia.

I never married or had children and have decided that should I ever leave the US, I would move to New Zealand. The country is beautiful and the people are so nice.

I still love sports. I love the University of Oklahoma football and have season tickets for Vanderbilt football and basketball. Go Does!!!

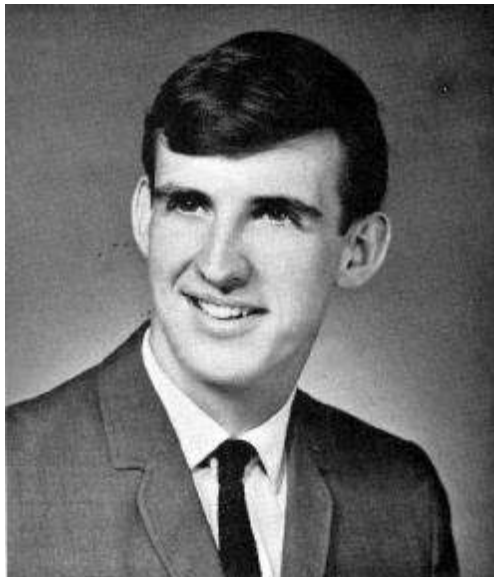

Jeffrey Lynne King - I'm divorced. I have a daughter and two grandchildren. I have lived in California and South Carolina. I have been back in Nashville for the last 18 years. I worked for Southern Bell then AT&T and now I work for the State of Tennessee, Department of Children Services, Juvenile Justice Division. I also do volunteer work for the HOSPICE Corporation. I live alone and take care of my mother on the weekends. I go to Hickory Hollow Baptist Church, have sung in the choir and have been a Sunday School Teacher for adults.

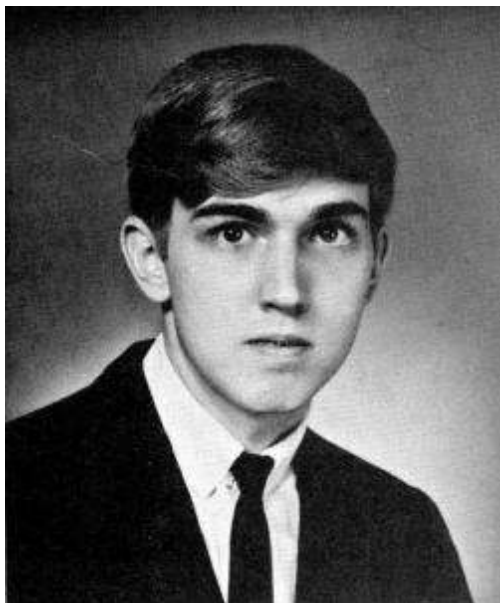

My hobbies: I love to read and cross stitch, not much time for either, but love both.

Pets: I have a weenie dog, 3 years old. He is quite an entertainer. His name is TAZ. Everywhere I go he is usually with me.

Glenclyff Class of 1967 - Current Bios as of 2007.

Kelly Wayne Brown - Things really changed after graduation. I served an electrical apprenticeship with the L&N Railroad, married Diane, divorced Diane and then left Nashville in 1972 to spend eight years in the nuclear Navy. Afterwards I landed in Manchester, TN and finally stopped in Luling, LA. Luling is a quiet town about 26 miles west of New Orleans. I worked in the Nuclear Power field for 20 years, then, re-educated myself and went into the technology arena. I went back to school and completed an MBA and am working with a small company in Mandeville, LA. Work life has been great...other areas have not. After 25 years, I am learning how to be single again, but that is a story for another day. If anyone gets down this way, stop by and say hello; there is always hot coffee or a cold beer!

Eddie Glenn Brindley - I finished Glenclyff with you all, went to Belmont for a short while. I started working for CSXT railroad in 1968-so worked there from then on, now I'm happily retired. My Ex-wife and I had two wonderful daughters--Michelle Lynn and Jennifer Lee Brindley, they are now in their thirties. I have three wonderful grand daughters, twins, are 19 years old Keeli and Kerri Brindley, plus my youngest granddaughter Mariah Deese is 8 years old.

I was married 33 years to one woman, I now live alone in Mt. Juliet in the home we had built in 1999. In my spare time I help in the elementary schools up here in Mt. Juliet, help a friend with two way electronics and ham radio. So now I'm single, live alone, go to some Church group activity's, dance, walk, workout, swim, hang out with my friends, try to stay busy.

Glenclyff Class of 1967 - Current Bios as of 2007.

Brenda Faye Williams (Phelps) - I attended Vanderbilt Medical School and was certified as a Radiologic Technologist. I married Don Phelps (Franklin High School '67) on April 17, 1971. After Don's graduation from Tennessee Tech and R.O.T.C. commission in the U.S. Army, we spent four years on active duty at Fort Lewis, Washington. Afterwards, I remained a radiologic technologist and Don was employed with South Central Bell, which evolved into the present AT&T. We lived in Nashville, Clarksville, and Franklin, then moved to Augusta, GA, and presently live in Griffin, GA, about midway between Atlanta and Macon. We hope to eventually return to Tennessee.

Don and I celebrated our 36th wedding anniversary on April 17. We have had three children: D.J., born November, 1974; Daniel, August, 1977; and Kelly, July, 1980. D.J. graduated from Berry College and is wed to Sherry. Their first son, and our first grandchild, Jacob, was born in March, 2007. D.J. is with Business Brokerage Press in Wilmington, NC. Daniel graduated from Emory University and is a district manager with Starbucks in the Atlanta area. Kelly graduated from the University of Georgia and Medical College of Georgia. She is in her second year of residency in emergency medicine at Morgantown, WV.

We have traveled extensively throughout the United States and enjoy camping, bird watching, dogs and cats, church, and children. I have to say that our successful marriage and family must be my most proud achievement. I am looking forward to seeing everyone at the reunion.

Sharon Rebecca Ellis (Follis) - I have been married to my husband, Gary for 38 years. We have two sons, Chad-35 years old and has his own dental practice in the Cool Springs area and is married to a dentist Darby, who practices in Columbia. They have a 3 year old daughter, Grayson, that I adore. Cory is 31 and lives in Marietta GA. with his wife Diane and they have an 18 month old son, Landon that I adore also. My husband works for Heery International and we also own Donelson Trophy House. We live in Hermitage TN.

Glenclyff Class of 1967 - Current Bios as of 2007.

Pam Tatum (Tichenor) - After graduation and enjoying the summer of the Beatles' "Sgt. Pepper," I went to MTSU. I did not graduate, but I did find a great job at WSM-TV (now WSMV) where I worked for 26 years. I met my husband Terry there, who also graduated from Glenclyff (class of 1970). We have been happily married for 33 years and were blessed with three beautiful children, who we unfortunately lost much too soon. Our son died at the age of 10 months from meningitis, and we lost our two girls at ages 7 years and 17 years from complications of the cerebral palsy they had since birth.

In 1995, Terry and I became involved with international adoption, and in 1997, we traveled to Latvia to bring home our beautiful 2-year-old son, Matthew! It seems like yesterday, but he's 12 now and going into the 7th grade this fall. He's a great kid who keeps us on our toes, but he has truly brought a lot of happiness to our lives! In 1996, I did finally find a job that I enjoyed. I work in the office of the Sociology Department at Vanderbilt University. I love the campus - it's almost like working in a park!

Mary Kathryn McNaron (Bryant) - After we graduated from HS, I started in nurses training at Baptist Hospital, finishing in 1970. Later that summer I married Johnny Bryant, a high school Government teacher. After marrying we moved to his home town in south MS. I worked in the local hospital for 4 years and then went into Home Health nursing for the next 26 years. I 'retired' in 2001 -no check-just not working.

My husband was a classroom teacher for 10 years and then went into school administration for the next 22 years. We have two sons so our lives revolved around school and church activities. We did youth work and taught in church. I have been playing the piano in church since I was fifteen and still do. Our boys are grown. The eldest is an Army Recruiter in south FL. He has one son. The younger son lives here in Laurel. He is Associate Pastor and Youth Minister at FBC Ellisville, MS. and has 3 children. My husband is a wonderful man. After he retired from the school system he took the pastorate of a small country church so I am now 'Grandmommy' and 'the preacher's wife'.

We were in Katrina and still see the result of damage all around. We had 25-30 trees down but thank the Lord they didn't fall on our house. Other than no utilities for 3 weeks and a LOT of cleanup we made it OK. A lot of people in our area were injured and had much worse damage than we did.

We are very blessed and life is good. I couldn't be happier.

Glenclyff Class of 1967 - Current Bios as of 2007.

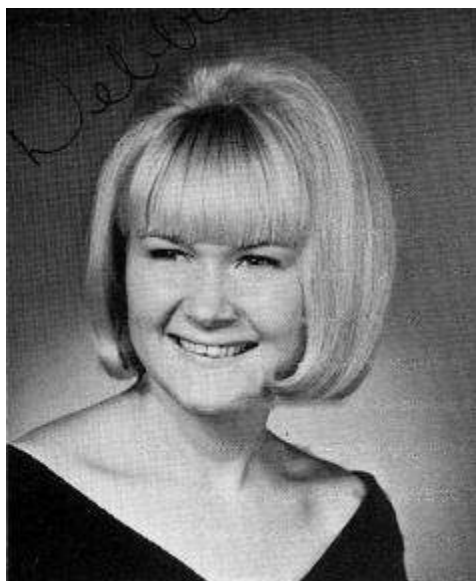

Pamela Dorn Cunningham (Cone) - Married, Divorced, Married, Divorced, Married, Divorced. That's it...DONE!

I have 5 wonderful children, Troy, twins Kellie & Candice, Jennifer and Sam. My granddaughter, Olivia is 3 and my grandson, Dallas is 2 weeks old! I can't get enough of them. There's never a dull moment in this family.

I moved to Atlanta in 1986. Worked as a legal assistant from 1986-2005. I am a licensed real estate agent and have hung my license with my daughter and son-in-law's brokerage firm, "Hardcastle Realty".

I have been fortunate to have traveled Europe. That was so exciting. I've visited the Keys for Lobster Fest on several occasions. I visited with Glenda while there. I'll never forget Glenda saying to me "who would have ever thought that when we were 50 years old, that you and I would be out floating in the ocean and gabbing! We had great fun.

I love to garden, sew and watercolor.

Deborah Fay Adams (Victory) - After high school, I obtained certification as a Laboratory Assistant from U.T. Nashville and started working at Nashville General Hospital. Subsequently, I received a BS from MTSU in Medical Technology and worked towards a MS. In the laboratory at Nashville General Hospital, I held various positions of authority within the department from Medical Technologist to Technical Director. My professional accomplishments included research related to drug use in pregnant women; and establishment of laboratory methods to improve the diagnosis of ectopic pregnancy and nutritional assessment of hospitalized patients.

In 1969, I married Carl Daniel Victory and after 38 years of marriage we are STILL together. We have one son, Carl Daniel Victory, Jr., and two grandsons. My husband works for the City of LaVergne where we have lived since 1970.

After nearly 36 years of service, I retired from Nashville General Hospital in 2004. I work part-time as a Medical Technologist for HCA Healthcare at Centennial Medical Center in Ashland City. When I am not working, I enjoy caring for my grandsons Jae and Caden, age 9 and 7 respectively. They live one block away from us and are a big part of our life. Retirement is great and I really enjoy having my time as my own, and the opportunity to take my grandchildren to the library and swimming at the YMCA. We enjoy traveling and have a big trip to Walt Disney World planned for October.

Glenclyff Class of 1967 - Current Bios as of 2007.

Nancy Edwina Dockum (Wainscott) (Kennedy) - After graduation, Nancy continued her education at MTSU. She married her high school sweetheart, Allan Wainscott, in October 1968 and remained married to him for 18 years. Life took them from Nashville to Denver, Colorado; then, Guam to New Hampshire and Maine, back to Tennessee and South Carolina. In 1973 they had a son, Jason, who now lives in Mt. Juliet. Jason is a graduate of Austin Peay (summa cum laude) and is God's greatest gift to Nancy. She has worked, mostly as an office manager throughout the years, with the longest tenure being with R. J. Reynolds Tobacco Co. for 14 years.

In 1983, Nancy moved to Knoxville and has since called that home (except for 2 years in Port St. Lucie, Florida). She stayed single and independent for almost 15 years, until she married Bob Kennedy in 2000. She was the office manager and he was the foreman, at a corian countertop shop, when they met in 1993. Being 11 years her junior, she didn't think he'd stick around as gray hair, gravity and wrinkles took ownership. The relationship was off and on, but there seemed to be a special friendship developing. She did dye her hair red; and, finally came to the conclusion that his fun side might balance out her responsible side. Bob is a native of Knoxville and is an accomplished cabinet/solid surface craftsman. Nancy is now working as a facilities department assistant in the mental health field, and finds her passion in Alanon, while helping families in recovery.

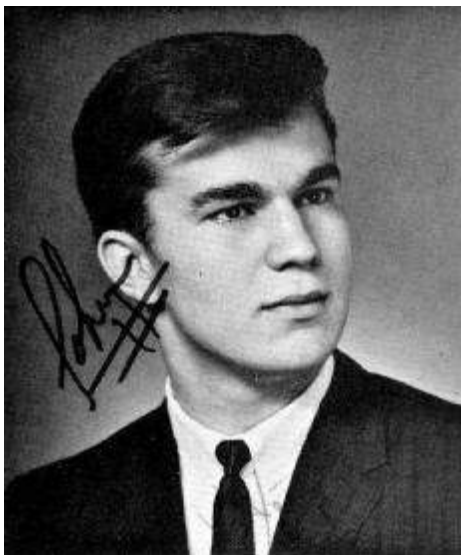

If you catch her dreaming of her high school days, she guarantees she'll have a smile when thinking about those away football games, riding on the band bus, or just cheering on the Colts.

Her motivating force throughout life is:

*Trust in the Lord with all your heart; and
lean not on your own understanding. In
all your ways acknowledge Him, and He
shall direct your paths.*

Proverbs 3:5-6

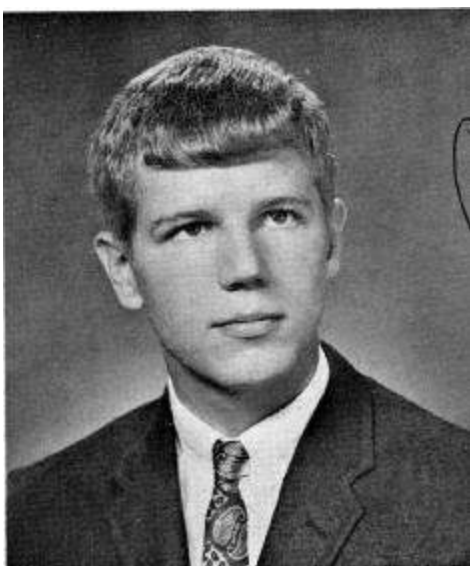

Glenclyff Class of 1967 - Current Bios as of 2007.

John William Knott III - After graduation, I married my wife Melinda in August of 1968. I attended college at David Lipscomb and UT until entering the United States Navy in 1971. After four years of service, I returned to Nashville and began a career in the automotive business. I worked as service director in Nashville and Memphis until 1995. In 1996, I enrolled in Trevecca Nazarene University to complete my degree and graduated with a BS in education. I later earned my masters of education degree from TNU. For the past nine years I have been teaching elementary grades in Metro Public Schools. I presently teach third grade at McGavock Elementary School.

Melinda and I have one son, one daughter, one grandson, one dog, and three grand-dogs. Our son, John, is presently serving in the navy stationed in Norfolk, VA. He and his wife, Abby, have one son, Johnny, who is almost four years old. So far he is the only grandchild. Our daughter, Rachel, is the assistant manager at Phillips Robinson Funeral Home in Nashville.

My first career afforded us the opportunity to travel to the Caribbean, Mexico, and to Hawaii twice. The closest thing I have to a hobby is playing the guitar. My favorite place to be is on any beach. Although I received many awards in my first career, I consider my greatest accomplishments to be my marriage and making the switch to teaching.

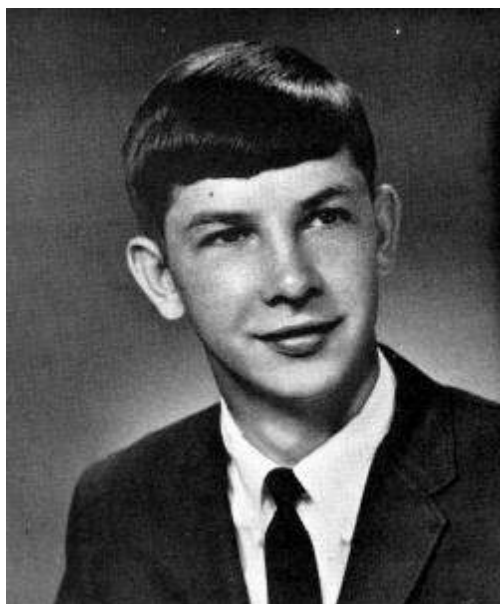

James Wilburn "Jim" Rash - Graduate of Columbia State Community College and David Lipscomb University; played four years college baseball as a pitcher; former 7th grade science teacher and football coach at Whitthorne Middle School in Columbia, TN; 25-year real estate career, owner/principal broker of Town & Country Realtors in Columbia established 1992, also involved in residential home construction and land development. I am married with three daughters, Starla (33), Kelly (16), and Natalie (13). I was introduced to my wife of 18 years (Nancy) by my sister (Donna) on Christmas Eve, 1988. My oldest daughter is married with two sons, Cameron and Tyler, ages 6 and 3. I live in Columbia, TN.

Glenclyff Class of 1967 - Current Bios as of 2007.

Deborah Susan Alessio (Jeffries) - I married right out of high school and divorced 5 years later. I stayed in Nashville until 1975 when I moved to Atlanta to work for a small, independent record company. Late in 1975, I moved to New York City and worked for Arista Records for three years. I got married in 1978 to Jim Jeffries who had been in radio and was at that time in the record business as well. We moved to Chicago for a year where I began working for Playboy Magazine in the Personnel Department for the Magazine Division. When we moved back to the New York/New Jersey area, I continued on with Playboy for their advertising/sales office, again in Personnel. I stayed with them for two more years and growing tired of the commute, joined a small firm in New Jersey which was a hospital and healthcare consulting firm. In 1986, we moved to Tampa, Florida to get away from the gray skies and cold weather of New Jersey. I joined General Mills in early 1987 working in their information services division in the Human Resources area. Our division supported two retail companies, Talbots and Eddie Bauer, but in 1988 General Mills sold both companies. Talbots and the information services division were purchased by the Aeon Group (a Japanese retail company). I have now been with Talbots for 20 ½ years and have been the Manager, Human Resources for the IS Division for the past 17 years.

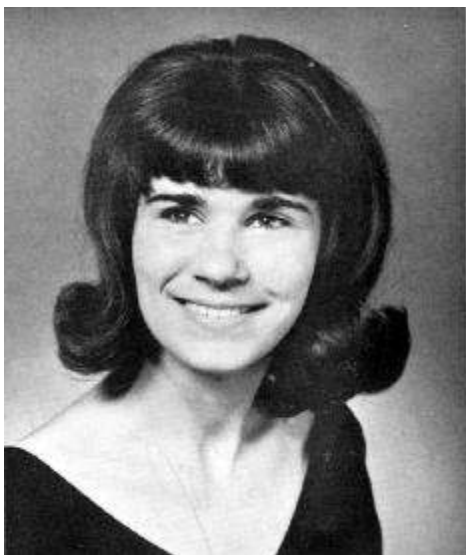

My husband and I met in 1975 and married in 1978. He has a son, Shawn, from his first marriage that is 38 years old. Shawn has three sons; ages 4 – 13 and unfortunately they all live in Phoenix, Arizona.

James Ennis Bradford - Joined the Air National Guard and went to work at AVCO. I was in the guard 15 yrs. I worked at AVCO for 3 yrs. Then left and went to work at NES. I retired from there in Oct, 2004. We also owned and my wife ran our convenience store. We sold it in Jan, 2007 and she retired.

I am married to Brenda Perkins Bradford we have been married for 38 years. We raised two sons and have two beautiful grandchildren. We live on a farm in Hickman County where we raise, show and sell mammoth jackstock. I guess my hobbies would be hunting and fishing especially hunting, and playing with the grandchildren. Now that we both are retired we would like to do some traveling before we get to much older!

Glenclyff Class of 1967 - Current Bios as of 2007.

Connie Lorelle Coursey (Whitley) - After graduating from Glenclyff High, I spent the summer as a counselor at Short Mountain Church Camp. In September of 1967 I entered Nursing School at General Hospital School of Nursing. I graduated in 1970 (along with Rita Rogers from our class) and immediately went to work in the General Hospital Emergency Department. I have worked as an Registered Nurse for 37 years (Oh, it hurts to say that!) I was able to work in many different areas of nursing (ER, ICU, L&D, NICU, Education, and Management). For a number of years I was Director of Women's Services at Summit Medical Center. I now work part time at Centennial Medical Center- Women's Hospital as a Nursing Supervisor. My family had moved between my Sophomore and Junior year in High School. I was devastated that I had to change schools. It was difficult to move into a class which had groups of people that had been friends since kindergarten. But as soon as I started playing Basketball I bonded with my teammates. I still love those people even if it has been 40 years since I have seen some of them. I will never forget them. (Nancy if you read this, you'd better email me.)

I graduated from Nursing School in June of 1970. I was married (eloped) in October of 1970 to a marine, just 10 days home from Nam. I was married for almost 25 years and at that time my name was Connie Baker. From that marriage I have two wonderful children. My daughter Mitchan (Mitch Ann) is 34 years old, married to Sean and they have two really, really wonderful children; Sean Luke who is 5 years old and Scarlet who is 20 months. My son Grant is 29 years old, single and doing well. After my divorce, I remained single for 7 years. In 2004 I married Bob Whitley, who was also from Nashville. Bob retired from Metro Government several years ago. He had worked part time in the Funeral business. In March of 2005 we purchased Ellis Funeral Home. For the last two years we have been renovating the building, as well as, adding space on. We are one of the few Funeral Homes around that is still family owned. My husband and I like to travel. We have made several trips to Europe and other places. As I look back over my life, I have been very blessed. My cup is three fourths full.

Glenclyff Class of 1967 - Current Bios as of 2007.

James Dewey McDonald - I started my adventure in life on 9/18/67 when I enlisted in the army. I took basic training with the 101st Airborne, Ft. Campbell, KY. I retired from the military on January 1, 1989 from the 4th Infantry (mechanized) in Ft. Carson, CO. My favorite post throughout my military days was in Ft. Bragg, NC, home of the 82nd Airborne Division. I was also lucky enough to serve some of my time in Germany where I got married in 1969 and am still married to the same beautiful woman. I have a boy and a girl and they have blessed us with grandchildren. I have speculated in land, mostly raw land. I own rental property and a farm in northern Alabama. I currently work for the United States Postal Service and have for the last 14 years. Hopefully, I can retire from them in a few years! Some of my hobbies include woodworking and hunting. I'm sure that all of us have had hard times in the past 40 years, but I'm glad that most of my 40 years have been blessed and rewarding in the long run. I hope that everyone can say the same.

Larry Joe George - I didn't finish school at Glenclyff. I dropped out in the 11th grade and finished high school with the Army. I was in the army for seven years. I served on the DMZ in South Korea for a year and came home and volunteered for Vietnam. There I served with the 7th (Custer's) Cavalry. My second tour there was with the 6th Infantry and was with them when they pushed into Cambodia in May of 1970 - we were the most forward infantry. I received a Bronze Star, Air Medal for Combat Assaults from Choppers, 2 Army Commendation Medals and 6 lesser medals and never got shot. After Vietnam I served another year in Korea. Back to the states where I trained officers at Ft. Campbell until I got out - another big mistake - I should have stayed in the army. I went to work for Metro and retired after 30 years. I now live in Prospect, TN and restore old cars. I was married but that didn't work out. I hope that all of the people that I went to school with are OK and still kicking.

Glenclyff Class of 1967 - Current Bios as of 2007.

Dennis Warren Laws - AKA: Boo Boo Bear, Spanky (of the King's Kids, not Our Gang) Native Nashvillian , graduated Glenclyff H.S. 1967, B.S.- Accounting from David Lipscomb 1971, obtained CPA, CDP, and CISA certificates while working as infernal auditor at GENESCO, Inc. Became Controller of General Adhesives, Inc. (animal friendly glue factories previously located in Nashville, TN and Lyndhurst, NJ). Subsequently went to Lakeshore Estates, Inc. (retirement and nursing facilities in Nashville) as Controller, not resident, but spent most waking hours at facility anyway for the last thirteen years.

Married high school sweetheart, Beckie Collie (Glenclyff grad 1968) and remains stuck on her like glue. Father of three super kids, all by said sweetheart and totally legal – two girls and one baby boy now twenty-two and newly married. As of now, Grandpa of three beautiful Murfreesboro munchkins...more eagerly anticipated so long as we can spoil them on our turf and send them packing for payback to direct descendants when sufficiently conditioned. Attends Belmont Church, prays forgiveness for providing said payback or at least for repentant spirit for enjoying payback so much! Still cannot dance a lick, sing or play much better. Lost most of the hairs God keeps track of and found a few pounds more than desired. Likes bells and whistles and seasoned iron cookware. Favorite expressions: "Ain't it great!"; "That's rich!"; "You sorry rascal!"; and "What, hon?" Looking forward to the upcoming reunion, but has to have glasses to see very clearly. Expecting to meet many old acquaintances and find them to be new friends!

Stephen Daniel Fuller - After graduation I attended Tennessee Tech University for two years. In the summer of 1969 I joined the U S Air Force. On August 29, 1970 I married Linda Hammer (class of 1968). After my discharge in August of 1973 with the rank of Staff Sergeant we moved to Jacksonville, Florida where I attended Florida Junior College and took HVACR for one year - graduated in the top of my class. We then moved to Mobile, Alabama and opened our own business with my father. On January 2, 1979 Linda gave birth to our son, Christopher.

After 17 years and the retirement of my father I closed our business and worked at various jobs in the HVACR field until 1999 when we moved to North Carolina. I work for Energy United, an Electric CO-OP as a propane tech. After 37 years I am still married to Linda and we now have a 5 year old grand daughter.

Glenclyff Class of 1967 - Current Bios as of 2007.

Donna Ray Polk (Davis) - Married Billy Davis (1966 Glenclyff graduate) in 1971 and we will celebrate our 36th anniversary on August 6, 2007. We have 2 beautiful children, Phillip 31 and Kelly 23. Phillip is married with 1 child, Thatcher (15 months). He is, of course, the most beautiful and smartest grandchild in the world. Kelly has just returned home after graduating from Tennessee Tech in Cookeville and we love having her at home. She keeps us young and on our toes.

My days are spent at Margaret Allen Middle School in the school office as secretary/bookkeeper. Metro Nashville Public Schools has been my employer for 16 years. (My how schools have changed since our days at Glenclyff High School).

We now live in Mt. Juliet, Tennessee in Willoughby Station. We love it and wish we had moved out years ago, but the kids wanted to graduate with their friends. (Imagine that?!) We attend Hermitage Hills Baptist Church. This is just about our life in a nutshell. Family (our mothers, our children and grandchildren have become our lives and we love it.)

Pamela Jean Hartman (Shepherd) - After two years of laboratory technology training, I worked in area hospitals and Medical offices around Nashville off and on during our children's early years. I have been the "clinical assistant" or office nurse for Dr Michael Milek at Tennessee orthopedic in downtown for the last nine years. My husband, Steve, is a local boy from our rival Antioch. We have been married 38 years and have two sons and a daughter in law. Life is good.

Glenclyff Class of 1967 - Current Bios as of 2007.

Walker "Jim" James Fleming - After almost not making the Glenclyff graduation ceremony due to a broken radiator in Mark Fielder's car on a trip to Kentucky Lake that Ken Sweeney, Mark and I made immediately before graduation, I went on to Tennessee Tech where I roomed at various times with John Bullock, James Curry, and Robert Taylor, all classmates at Glenclyff. While at Tech I met my wife, Barbara Burch (a Shelbyville native) and away we went to Auburn where we received MS degrees, mine in wildlife sciences. From there we went to Cornell and earned PhDs (both of us), mine in wildlife science with a minor in pathology. Now in my 36th year of marriage, we are preparing to return to Tennessee. Cookeville is our destination, 25 years in Washington DC is enough! On September 11 of this year, I will complete 30 years of federal service. During the first 17 of these years, I worked as a research scientist for the US Fish and Wildlife Service, primarily focusing my research on the effects of environmental contaminants on wildlife. I worked on the effects of oil on sandhill and whooping cranes, eggshell thinning effects of organochlorine pesticides, and the toxicity and behavioral effects of some of the newer pesticides. During this time I published about 70 scientific papers. More recently I have served as the Deputy for a joint federal, state, and university program. In this job I have had the good fortune to manage a program with 110 scientists working on a diverse array of issues, including global climate change, causes of coral reef declines, and caribou and oil exploitation in the Arctic National Wildlife Refuge.

Barbara, now a double doctor (MD, PhD) and I currently live in Silver Spring, MD. We have no children, but we do have 3 dogs, all strays or rescued hounds! My hobbies remain outdoor activities such as fishing and hiking. But thanks to Barbara I now have an interest in glass objects (art glass, antique glass pitchers) and glass making. I tried glass blowing, but never got the hang of it, so I now serve as an assistant to the real talent in the household, helping Barbara with her fused glass jewelry, plates, and other objects. Obviously, I married a talented, high energy person with whom I have had the fortune to share my life. Sometimes you just get lucky.

Glenclyff Class of 1967 - Current Bios as of 2007.

Vicki May Harris (Feinstein) - I got married in 69 to a Central graduate. Started working in psychology research at Vanderbilt/VA Hospital. In 1977 a big event, Star Wars, and yes my son Kevin was born. In 83 I divorced and raised by son Went back to school in 1991 to study Occupational Therapy. Presently I am the chief of Occupational Therapy at the VA in Nashville. I have been employed by the VA for 34 years and am planning on retiring next year and start a new career in something hopefully being a grandmother.

My hobbies and interest are eclectic. I love sports especially Vandy, Atlanta Braves, and of course the Titans. I have season tickets to Vandy football, men and women basketball, and go to some of the baseball games. I also have Titan tickets. I hope the Predators stay even if hockey is a Yankee sport. I do a lot of volunteer work for political activities especially local elections. I also have a love of animals.

My son lives in the San Francisco bay area and I would like to move to the area after retirement, but my family is here in the Nashville area.

My biggest achievement is quitting my job at age of 40 and going back to school to get my degree in Occupational Therapy. It has been a wonderful choice both financially and has given been great satisfaction in helping and working with our veterans.

Don Rickie Lecomte - My wife Matilda and I live in west Nashville. She has one child a boy and five grandchildren a real hand full. I retired from the railroad in 1996. We own 93 acres in Dickson County mostly woods we are building it into a farm. Very quiet and well off the road. I like to gamble on line. It's exciting and sometimes profitable. Life is good I hope to have more of it.

Glenclyff Class of 1967 - Current Bios as of 2007.

Jennie Lee Spangler (Stuteville) (Harper) - After graduation, I married Robert Stuteville in August, 1967. We had two sons, Matt and Michael. Robert and I later divorced, and I married George Harper. We will celebrate our 30th wedding anniversary this year. Soon after we married, our family moved to Thunder Bay, Ontario, where we lived for about 3½ years. It was an interesting but "chilling" experience for a southern girl! We moved back to Nashville in 1981.

In the mid-80's I attended MTSU for a couple of semesters. I worked for about 30 years as a secretary/administrative assistant with several companies in various industries – banking, insurance, engineering, transportation and, most recently, a law firm, "retiring" in 1999 when George took a job in Lawrenceville, Georgia. We returned to Nashville from Georgia in 2005 when he retired and here we plan to stay, as the kids and grandkids are in this area and we love spending time with our two beautiful granddaughters, Brooke and Lauren.

In addition to family, we stay busy with friends, church work and hobbies - music for him, knitting, reading, and finding him projects to do around the house, for me. We like to travel and enjoy the beach, having made trips to Hawaii, Bermuda, and the Bahamas, as well as Gulf Shores, St. Simons Island, and Florida. We've traveled in Canada from New Brunswick on the east coast to Vancouver on the west coast, with a recent trip to Thunder Bay, taking all the family to revisit where some of us lived 25 years ago.

My only near claim-to-fame is that my husband's nephew, Stephen Harper, is the current Prime Minister of Canada.

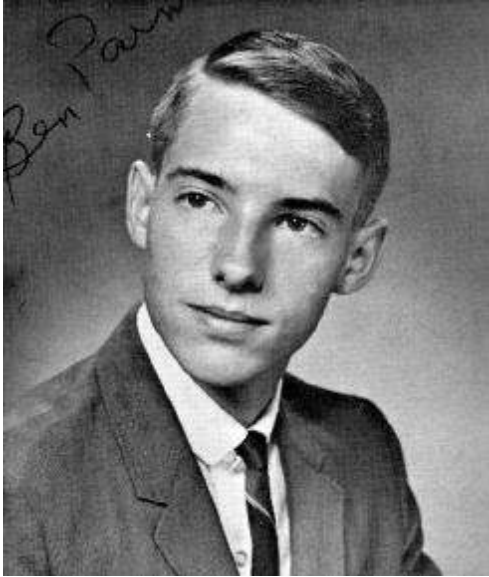

Phyllis Anne Harrison (Mangrum) - After graduation I married my high school sweetheart Larry Mangrum. In October we will be married for 40 years. We have three great sons. I was lucky, I got to be a stay at home Mom to raise my children. We have two wonderful granddaughters. Kayla is 18 and a freshman at CSU and Mindy who is 13. Our third grandchild is due in February.

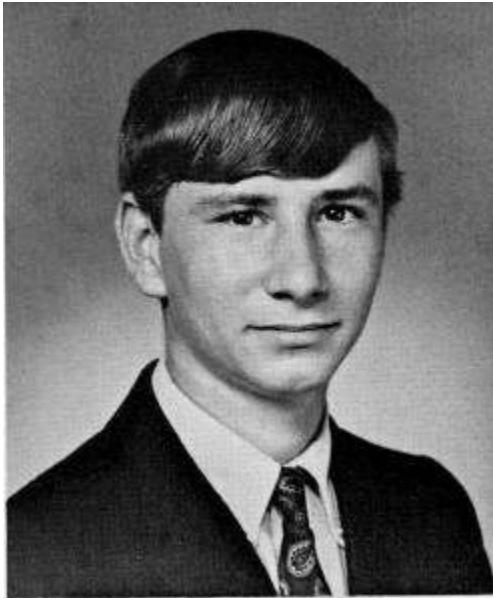

In 1984 we moved to Atlanta, Georgia, where we still live today. I took a job with a publishing company. I worked in the art department for 15 years. Today, I work as a part time merchandiser for Hallmark.

Now, Larry and I enjoy spending time with our grandchildren, our Yorkie Maggie May and traveling when we get a chance. Several years ago we took a cruise to the Baltic region. It was great. My life is really good and I am so thankful.

Glenclyff Class of 1967 - Current Bios as of 2007.

Ben Sterling Parman II - I married Kitti in 1971 and she was a graduate of Glenclyff that year. We have three children, who are all out on their own. Beth is married and has two children and live in New Albany, Ms. Robby is married and living in Tupelo, Ms. Beth is a school teacher and Robby is a salesman for MSC manufacturing. Chris is our youngest and just graduated from Mississippi State and is head coach at Hatley High school. Kitti is a nurse and Diabetic Educator for North Mississippi Medical Center in Tupelo. I have Pastored four churches in 35 years and now the Director of Missions for the Prentiss Baptist Association in Booneville, Ms. That's it!

David Hatton Oliver Jr. - After high school, I went to the University of Tennessee @ Martin majoring in Electrical Engineering. I spent a year there where I spent more time in bar rooms than I did class rooms. As a result, I was put on academic probation and eventually joined the Army as a Fire Control Technician on the Hawk Missile System. I spent three years in the Army, fifteen months in Germany.

After my discharge, I went back to school getting two Associates Degrees; one in Electrical Engineering and one in Electronics Engineering. I worked for an electronic R&D firm in Nashville while I went to night school to get my BSEE from UT Nashville. For the last 35 years, I worked for four companies in four different states as an Automation Engineer building automated test and assembly equipment for industry.

In 1971 I married Linda Marie Randolph, a 1970 Glenclyff graduate, by sending her a one way, non-refundable airline ticket to Germany. We've been married for 36 years and have two wonderful daughters Shannan 30 and Allison 24. We live on the lake in Lebanon, TN on 5.33 acres with one dog, one cat, one 96-year-old father and a variety of deer, turkey and other wildlife.

Glenclyff Class of 1967 - Current Bios as of 2007.

Robert Harris Chaudoin and Mary Edna Reasonover (Chaudoin) - Bobby and I have two sons - Robert Daniel (37yrs) married to Lauri Dickson Chaudoin (she graduated from Glenclyff in 90, was a cheerleader - she went on to graduate from Vanderbilt Law School and is a lawyer for Rogers Group) Danny graduated from Glenclyff in 1988, is a fireman for Metro and also installs Sound Systems on the side. They have 3 of our grandchildren - Hannah Grace (7yrs), Olivia Louise (5yrs) and Robert Lane (1yr). They live in Joelton.

Our second son is John Thomas (35yrs) married to Legina Ford Chaudoin (she graduated from Hillwood and met Tommy while they both were at Tennessee Tech & graduated there together - she is an accountant for O'Neil & Haggaman). Tommy graduated from Glenclyff in 1990 and is self-employed in the construction business. They have the other 2 of our 5 grandchildren - Cy Thomas (9yrs) & Cole Rease (7yrs). They live in Bellevue.

Bobby & I have been married 40yrs as of June 30, 2007! Both sets of our parents are diseased. We are members of Christ Church. We enjoy the most and the most important part of our life is our grandchildren - we are Papa & Gran. We also have a 17yr old dog, Prissy.

Bobby worked for both Ellis & Woodbine Funeral Homes when we graduated from Glenclyff. Soon after he became a police officer for Berry Hill. He worked there until Tommy was born then he graduated from the Metro Police Academy. He served as a Metro Police Officer in the K-9 unit, homicide unit, murder squad, detective and retired a sergeant from Metro. While he was with Metro he was asked by D.A. Tory Johnson to work for him as a criminal investigator and has remained with Tory for over 20 years. He will retire from the State of TN. in 2 yrs. Bobby then plans to work for the Federal Gov. in some capacity at that time.

I worked for Bell South for 20 years - graduated and then owned a gift & souvenir shop on 2nd. Ave. My mother passed in 1990 and my Dad had Alzheimer's disease so I sold my business and cared for him for 6 yrs until he passed. I then worked various jobs and am presently a "Rainbow Dealer". (This is a system that cleans your air and rids the dust in your home). I love it, I work the hours I want to work and still make good money.

Glenclyff Class of 1967 - Current Bios as of 2007.

Marsha Lynn Kirby (Hillenbrand) – I began working right out of school. Moved out of the family home at age 19 and loved the freedom. I lived with Fran Compton Powers for a year. Had many building blocks of employment during the first 4 years after graduation and then married Richard Hillenbrand in 1971 while he was in Air Force. We were married 3 months when we found out I was pregnant; he left for Viet Nam for his 3rd tour of duty when I was 7 months pregnant with our first daughter. We had a second daughter in 1975. After the girls started school, I went back to prepare for a career in Administrative Business at Nashville Tech and then later attended Edmondson Jr. College. Richard and I divorced in 1986. I've never remarried.

I have two grandchildren - Lauren age 10 and Braden age 6. My youngest daughter Angie married Jason Ward - Gayle Graham's son. Angie works for Comdata and my oldest daughter, Misty, is married and works for Vanderbilt Medical Group.

I've worked for Telco Research - 8 years and Willis North America for 14 yrs. I'm currently unemployed (doing temp assignments) and am actively seeking full-time employment.

Eddy Wayne Beard - I was a gun runner and now I am a whiskey runner. I am not a serial killer; I repeat I am not a serial killer. I work for a living. I did serve my country in the army during Viet Nam. I was married and then I was not married and then I was married again and am still married. I have a daughter and son and two wonderful grandsons ages 8 and 6. I work for a wholesale liquor distributor. Everything but the beginning is true.

Glenclyff Class of 1967 - Current Bios as of 2007.

David Arnold White - After school I went to the army and Vietnam then I went to college, then Ford Motor Company service. I also started my tree topping company. I retired from Ford but I still have my tree business. I got married in 1977. I had two wonderful boys, Jonathon and Jason. My wife started running around on me after 26 years so I got a divorce. I have had a hard time trying to find a good woman to spend the rest of my life with since then (ha)! Finding them is a problem. I now teach college automotive classes at NADC. I own my on home, and I am debt free. I attend Judson Baptist Church. That's my short story for what its worth. If there is any single sweet darlings left, give them my email address (ha)!

Sandra Bautz Culbertson - I left high school and went to secretarial school. It didn't take me long to realize that it wasn't my thing. I did very well in home party sales while my children were small. I was in Home Interiors for almost 9 years. I went to college when I turned 40 and got my nursing degree. I have done lots of nursing stuff, but Home Health has been my heart. The past 4 years I have worked for a home infusion pharmacy. I work 3 days a week. This gives me time to do my other love, which is to write. I have been writing devotionals for our Women's Ministry for a couple of years.

Most of you know that I lost my first husband to the Vietnam War. We had no children. I met Bruce and we have been married almost 37years. My husband has run heavy equipment all his life. He's like a little boy when it comes to his big toys. He never gets tired of them. All in all God has been good to me.

I have two daughters - Brandy and Tina. I have two grandsons by Brandy - John Phillip (J.P.) who is soon to be 16 and Christian who will turn 13 in October. The jewel in my crown is the newest member of the family - Shealyn Nicole. She is a tiny blue eyed blonde of 17 months. She is my sunshine and I am so blessed because she lives with her parents (Tina and Chuck) in a basement apartment in our house. I know nothing of empty nests. Ours has always been full.

My life is pretty normal. I have a wonderful, loving family. I belong to a sweet, spirit filled church where which I love to serve. I have lived in the same house since Bruce and I married, so I have deep roots in my community. It's hard to believe that forty years have passed since we went out into the world to make our mark. I am satisfied with the life God has given me. In fact, I am a blessed woman.

Glenclyff Class of 1967 - Current Bios as of 2007.

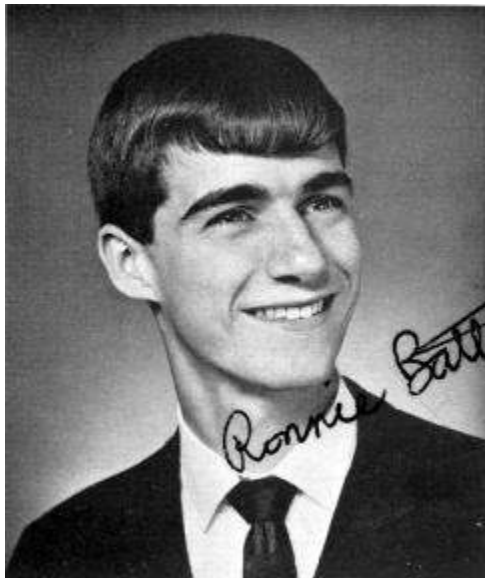

Albert Kenneth Sweeney - After graduation I 1967, I started mechanical drafting studies at Hume-Fogg in the mornings and went to work for Howard, Nelson, Lyon, Batey, and O'Brien in the afternoons. I then went home to sleep until the third shift at Baird-Ward Printing which gave me just enough time to get to Hume-Fogg in the mornings for classes. Somehow in the middle of this I managed to have a few dates. In April of 1968 I joined the army, signing up for a four year tour of duty. I returned from basic training and married Brenda Faulkner (class of 1968) and was then sent to Ft. Devens, Mass. for training. I trained for Vietnam in the snows of Ft. Devens and then went to Petaluma, California. After a few months there I was sent to Vietnam and did my one year tour. It was in Vietnam that I saw things that have still affected my life, for the good, to this day. After Vietnam I went to Germany where I completed my time with the army. Brenda was pregnant and upon returning to Middle Tennessee it seemed that everything had changed. School friends were gone and life was more serious. My daughter Carissa was born in 1972 and my son Daniel was born in 1974.

I started working for the prison system in 1972. I worked at the north Nashville men's prison and some assignments at the women's prison. This was not my cup of tea, so I went to work for the Happy Hills Boys Ranch as a farm hand and house parent for seven boys. After a year I left and worked at recreational vehicle repair and then carpentry work for five years. Construction slowed so I joined the Tennessee Air National Guard in 1978. I worked in the jet engine shop until 1985 when I had my injury. I was carrying a fire extinguisher to the engine test cell for installtion when it exploded and I was blinded in the right eye. I was off work for five years, multiple surgeries and a divorce. I was able to return to work in 1990 at Guard Headquarters. I was promoted to Worker's Compensation Specialist, my background in the area due to my injury. I have 32 years of federal service and maybe one day I can retire.

I married Rita Hargrove-Brown in Knoxville, Tennessee. She and I met at a ball game in Una where I coached and her son was on my team. She moved to Knoxville to be with her son at the Tennessee School for the Deaf and I couldn't stand being away from her and followed to marry her and we lived in Knoxville for about five years before moving to Clarksville and then to Smyrna where we now live. Rita and I attend Smyrna Church of Christ where I have started a group of men called the Saturday Saints. We meet to do repair work and serve the needs of the community - building wheelchair ramps, small home repairs, auto repairs, lawn mower service and moving the elderly. Rita and I teach classes at church, mentor younger couples, and work with adult singles classes. Truly these are the best years of my life.

Glenclyff Class of 1967 - Current Bios as of 2007.

Ronald Neil Batts - After graduating from the University of Tennessee in Knoxville in 1971, I began a career in retail. I spent the first 12 years working for Castner Knotts and different divisions of their parent company, Mercantile Stores. The assignments included stints in Wilkes Barre, PA and Seattle, WA, as a Divisional President of two department store chains owned by Mercantile. I left Mercantile and moved to Charlotte, NC to head up a chain of specialty stores as President. I led the sale of this company and then bought a chain of stores, moved the headquarters to Charlotte, expanded the chain for five years and then sold them. I then moved to New Jersey as Chief Operating Officer of a chain of specialty stores and then moved to Chicago when the chain was acquired by another chain.

I left Chicago in 1994 to do a retail start up for Haggard Clothing Company and have lived in Dallas since except I spent a year commuting to Boston to serve as President of the Levi Strauss stores and I have been commuting to Cleveland for almost five years to serve as Senior Vice President of Things Remembered, a 625 store chain which is based in Cleveland.

I am married to Martha Hollyday Batts who is from Ashville, NC and we have two children, Chandler (14 year old son) and Kathryn (10 year old daughter).

Andrea Lea Smith (Farmer) - I am married to Terry Farmer and as of the past June 22nd, we have been married 39 years. We have two children, a son Jim, 31 and a daughter Katie 25. Both attended Glenclyff HS.

Jim has his own businesses, oil change franchises, and Katie is a graphic artist. She has been accepted to attend Julliard in New York for specialized courses in graphic applications.

I am currently employed with Metropolitan Nashville Public Schools IT department. I am assigned to Glenclyff High School at this time.

It is very interesting to see all the changes at our school. I have been active with the Band Boosters here for 16 years. Both my children were in the band program and I have just continued to be involved. It is still a great program at Glenclyff.

Glenclyff Class of 1967 - Current Bios as of 2007.

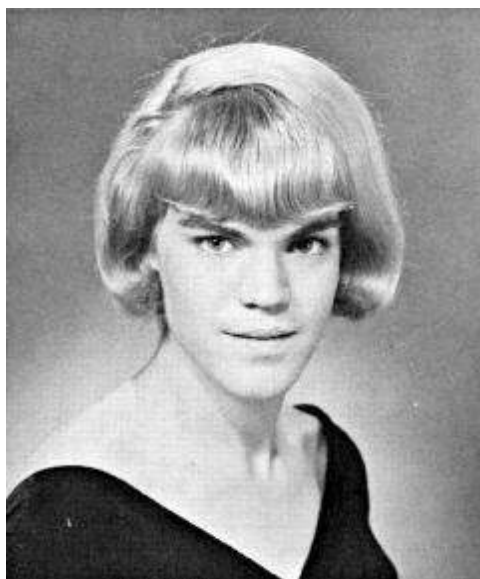

Julia Frances Compton (Powers) - I have had a variety of employment since graduation from GHS. One summer in the 80's I worked for the Battle of the Bands in Florida and did everything from setting up trailers, hiring, supervising, and being escorted by armed security when I picked up gate money and transportation for the guest stars. I have worked part time for Gaylord as a usher for concerts, hockey, arena football and Country Music Specials. I also worked the Coliseum for the Titans. Both jobs were great - I was in the middle of things without spending a penny. I have worked part time for Homewood Suites in Brentwood where I cooked breakfast for 250 guests every Saturday and Sunday mornings - not just juice and muffins but biscuits, gravy, eggs, waffles, sausage and the drinks.

I was with the Credit Bureau for 6 years, State of Tennessee for 10 years, Aladdin Industries for 5 years and Norell for 2 years. I am with the State Attorney General's office and have been for 17 years. They made a position for me - Administrative Specialist in the Admin Division. I do everything from telephones and inventory, surplusung all State owned equipment, managing maintenance to "as needed".

I have learned to water ski, took karate and loved riding Harleys. I want to ride again when I find someone that I trust with my life. I was married for 5 years in the 70's and have been happily single since. My mom still lives in the house on Yelton Drive and I try to keep her busy.

Life has been very interesting and stressful at times but all in all I have had a very good life.

Clara June Sullivan (Timmons) - I have been married twice and have one child, Phil, and three grandchildren, Christopher, Kara, and Kiefer. My husband, Allen, and I live on seven acres with four dogs, one cat, five horses, and a very large goat. Over the years I have worked as a veterinarian tech, a school bus driver, managed the food services at the Williamson County Ag Expo Park, owned and operated a carriage service, and now I have a dog boarding and grooming business which is my way of retiring. When I have time my favorite thing to do is competitive carriage driving. My Morgan, Nashboro Joshua, and my Belgium, Luke, have both earned several championship obstacles. I am also a Tennessee Master Gardner and enjoy my flower and vegetable gardens.

Glenclyff Class of 1967 - Current Bios as of 2007.

Kathy Spaulding (Conaster) - Mike and I met and dated in high school and married in college. We both graduated from UT Knoxville and are still huge UT fans--especially Mike. We've lived in many locales --some great (Germany)--some not so great (Oklahoma, Georgia, Alabama), but have called Tennessee home for the last 30 years (Knoxville, Murfreesboro, and now Maryville--you can see the Smokies from our back deck).

Mike has spent his career working around or selling heavy construction equipment. He now has his own business selling equipment - cranes, boom trucks, tugboats, barges, whatever. My career has been in education and, in fact, I have taught in all the above mentioned locales --except Okla. I'm still teaching high school math in Knoxville -- hoping to survive at least two more years.

We have three sons, one daughter-in-law, and two "grand" dogs. Andy, the oldest, graduated from UT in hotel and restaurant management. He lives in Nashville and works for Cheesecake Factory, but is hoping to open his own restaurant in Knoxville soon. Judd graduated from the Naval Academy and married his high school sweetheart, Eliza. He is a P-3 pilot. Eliza works with a wellness corporation Flash Point 52, based in Jacksonville, FL. Mike and I have had a great time traveling to great places visiting Judd and Eliza--Maine, Florida, Hawaii, and Seattle. Mike got to ride from Hawaii to San Diego on the Abraham Lincoln with Judd. (I passed on that trip.)

Zack followed his brother to the Naval Academy--Annapolis is almost our second home. After graduation, the Navy was kind enough to send him to grad school in Monterey, Ca. (He spent a year living on Pebble Beach--tough life). Mike and I helped him drive cross country twice--one summer to California and the next summer from California to Pensacola. We took different routes and enjoyed beautiful scenery and several National Parks.

Zack's also going to be a P-3 pilot - he gets his "Wings" in Corpus Christi in Sept. He and Judd and Eliza will all be in Jacksonville, Florida, this fall. (It's nice to have all of the family within driving distance for a change).

Glenclyff Class of 1967 - Current Bios as of 2007.

Gladys Ida Jones (Wannatooker) - WOW! has it really been 40 years since we entered into the real world? Since I love being married so very, very much, I've experienced the blessed occasion nine times! And it was true love every time. Hubby #9 is Harry Wannatooker and we live in a beautiful estate home on Dickerson Road. Harry's momma owned the home originally, and he inherited it, the attorney said by default, when Momma Wannatooker went missing after diving for mussels in the Cumberland River. We just hooked it up to the truck and pulled it to a lot we rented on Dickerson Road. Ya'll should come over some night and we can all play poker, drink a few beers and talk about the good old days. I have six beautiful children ages 4 to 39, I can't remember some of their names, but they always remember mine – such sweet children. Sometimes they have to remind me who their daddy is. We are such a close loving family. I have been working at the Waffle House on Dickerson Road for the past 18 years. I work the midnight shift, so stop by some night when you are in the area and we'll serve you up a free cup of jo, and a double order of smother-covered and fried. I'm not into those computer things or email, so just feel free to call me at the Waffle House between 11:00 pm and 7:00 am, just asks for Gladys. Everyone up and down Dickerson Road knows Gladys. Hugs and Kisses to All!

Donna Marie Eakes (Franklin) - My husband (Carl) and I are happily married for 5 years as of Aug. 17th. We have 2 daughters, 2 son-n-laws, and 4 wonderful grandchildren. We travel a lot now and go on cruises because we have an empty nest now. We love football and are Big Titans fans. I presently work for the Metro Board of Education as a Paraprofessional with Autistic children and I love it. Our life is blessed and wonderful. Best wishes to the Class of 67.

Glenclyff Class of 1967 - Current Bios as of 2007.

Donna Maria Oakley (Littleton) - After graduation, I studied Fine Arts at MTSU and UT-Nashville; before obtaining my degree, I married, had a beautiful daughter, Stephanie, then later divorced. We moved to South Carolina, where I had lived as a small child. Loved South Carolina -- great location for easy access to the mountains or the beach -- loved the beauty and slow pace of the "Low Country". Received a scholarship in Graphic Design, however, as a single parent, I very quickly discovered the truth of the "starving artist" syndrome, so began working as a legal secretary, but continued to pursue art classes, concentrating on watercolor. (Alright, at this point some of you are saying to yourselves, "I don't remember Donna as an artist". Well, let me remind you that I WAS on the Poster Committee, and one of my most memorable posters was an unmistakable life-size likeness of Glenda Gibson for the Sweetheart Ball -- OK, she DID lie down on the poster paper while I traced around her body, but it was a great poster all the same.)

Anyway, after about 10 years in South Carolina, we moved back to Nashville to be closer to family. I continued to work as a legal secretary, then legal assistant, and in that capacity, administered the Tennessee Life & Health Insurance Guaranty Association. It was during this time that I met and married my wonderful husband, Bob, a local attorney (yes, it's possible to be both). I took an early retirement a little over 3 years ago, and resumed my painting. I recently had a great opportunity to participate in a charity art show and one of my watercolors sold at auction; I've since received some commissions and it seems I may have a second career. I'm active in my community, volunteering through the Junior League, at Cheekwood Art Museum, in my neighborhood association and I also teach 2-3 year old Sunday School. My husband and I have two grown children, Stephanie and Rob, and two precious grandbabies, 3-year old Jackson, and 1-year old Duncan. Life is good!

Rose Mary Gentry (Green) - After graduation, I went to work with First American Bank and worked there for 12 years (sure was something for somebody that struggled in Business Math). I had a son from my first marriage and years later after a divorce I married Michael Green (Antioch High School Class of 1969). He had a daughter from his first marriage where her mother died when she was 3 years old. We felt we had a ready made family. I'm now a housewife. My son gave us two beautiful grandchildren (ages 14 and 9), that are our whole world. We just celebrated our 25th Wedding Anniversary and our children threw us a fabulous surprise party. We feel that we have a very blessed life.

Glenclyff Class of 1967 - Current Bios as of 2007.

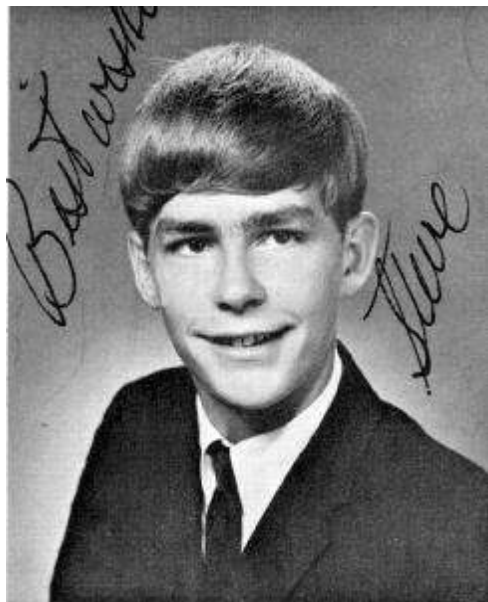

Sylvia Lisa Lee (Woverton) - I always hated homework and this feels like homework! I've been busy doing something these last 40 years - but what? Oh, I had a "senior moment". Ok here goes.

After GHS I attended MTSU for a short itme - Donna Oakley was my roommate. I married in 1969 to a police officer. I was married 24 years. During my marriage, we were in the ministry. He went back to police work and the marriage ended. I moved on! We had 2 sons.

Most of my life I have been self-employed (hair salon, craft store, rug store) making a living but not a fortune. I remarried in 2001 to a wonderful man named Robert. We live in Smyrna, TN. We have a retail rug center at the Farmer's Market in Nashville. He has 3 children and 8 grandchildren. I have 2 children and 5 grandchildren. They are all wonderful, beautiful and smart!

My life has been busy, happy, sad, funny and blessed. Apart from my family, I feel fortunate to have remained friends with the "girls' night out" group all these years. Through marriages, divorces, and remarriages we have cried, laughed, traveled and danced the night away! Boy do we have the stories!

SO MUCH LIFE! SO LITTLE TIME!

Stephen Dale Pigue - After high school, I went to Tennessee Tech University and majored in Mechanical Engineering. My automobile was a 1967 Chevelle with many modifications putting out 600 hp. In 1968 I got married and that ended my drag racing days. In 1969 my son was born and my college days were over. Although a senior, I had to quit college to go to work and feed my family - four years of college and no degree - that sucks! My step-dad owned a masonry contracting company, so after 3 years of apprenticeship, I became a brick layer. My dad retired and I started my own business - Pig Pallet Company. My first wife and I broke up. I remarried and had a daughter. That wife left me for a policeman. That's two wives and two children. When am I going to learn?!! Third time a charm, I thought, so I married a nurse who already had three children. We bought a house on Old Hickory Lake (where I still live). We broke up after four years. I decided to get a dog - a black lab that I love. I feed her, exercise her and let her swim. She is so happy with me. I am retired and now enjoy the lake, my wave runner, NASCAR, baseball, tennis, football, my three grandchildren (two girls and a boy) and, of course, my faithful black lab, Dancer.

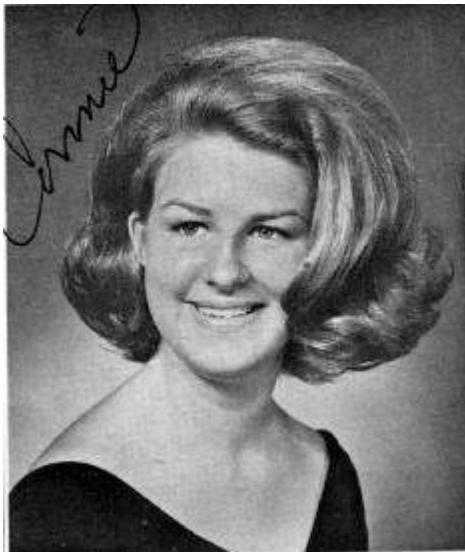

Glenclyff Class of 1967 - Current Bios as of 2007.

Suzanne Lane (Burtchaell) - My husband and I have lived in Franklin (actually Cool Springs) since April 2001. I've been "retired" since 1998 and love it!!!! I spend my days doing the things I enjoy....like gardening, volunteer work, reading and traveling. My husband retired three years ago so we do a lot of traveling in our motor home. But we most enjoy spending time with our grandchildren...Lindsey, age 7 and Jack age 3.

Where have I been for the last 40 years? Job offers took us to Chattanooga, Cincinnati, and back home to Nashville in 1988. From 1988 to 1998, I worked for Nortel Networks in Nashville in various positions in sales and marketing management and traveled throughout the US and Canada. I had lots of great opportunities, but it was too many long days and too much stress so I decided to leave the "working world." From 1978 to 1988, we lived in Cincinnati, Ohio and I worked in sales positions for Cincinnati Bell and Xerox. In 1982 while living in Cincinnati, my husband's 12 year old son came to live with us, much to our delight. (He's now 37!) We headed back to the South in 1988 when our son graduated from high school and headed to college. Prior to 1978, I lived in Chattanooga where I graduated from UT Chattanooga with a degree in Elem. Education and met my husband, John.

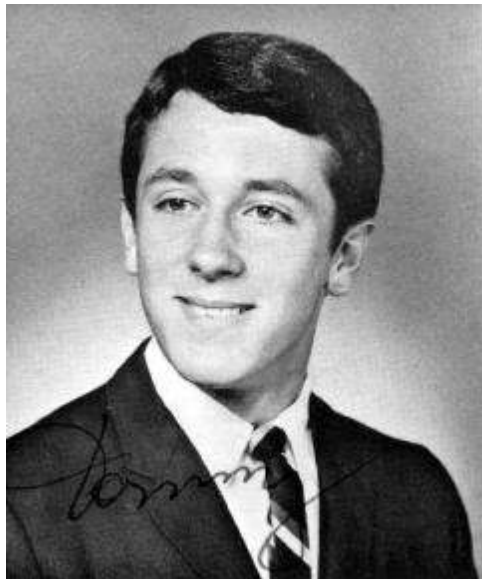

So here I am.....it's 2007..... I'm a 57 year old grandmother, married almost 33 years and out of high school 40 years.....where did the years go?????

Connie Lee Ray (Leach) - Retired from the library after 30 years and enjoying it-- just now learning to cook!-- (made some gray Swedish meatballs--not good.) I have had numerous cats but no children. I have traveled some. I went to Denmark and England by myself which was a great adventure. I married twice. I worked harder this time, so it's working out nicely.

I go to a wonderful church, Belmont Church, and am learning about the love of God. I am trying to write a novel, but am surprised that I have so little time. Love and Best Wishes to all.

Glenclyff Class of 1967 - Current Bios as of 2007.

Thomas "Tommy" Wayne Francescon - A year after graduating from Glenclyff High I married Suzanne Lane and in 1971 we moved to Chattanooga, TN, and after less than 6 years of marriage we divorced. While still in Nashville, I started attending UT Nashville and after several interruptions which included serving my active duty for the Army National Guard and moving to Chattanooga, I eventually finished and received a BS in Business/Marketing from UT Chattanooga.

In 1975, I married Del Robertson who was actually born in Atlanta but her family moved to Chattanooga when she was 6 months old. We have been blessed with 3 children, 2 of which are married and 3 grandchildren (T.W., Jr., Laurel and Thomas III; Adam; and Sarah, Dusty, Payton & Carter Downs). We have been involved in various church and community activities through the years. I had the pleasure of coaching all our children in their various sporting activities. We have lived on Signal Mountain for the past 27 years.

My business/work career has taken me through a number of transitions since high school days. A little over a year ago, two other guys and I started Medical Technology Sales, LLC, which is software/hardware solutions provider for healthcare-----we do Practice Management and Electronic Medical Records systems for medical practices.

The most significant event in my life: Accepting Jesus Christ as my savior and Lord at the age of 30. The most important relationships in my life after my relationship with Jesus Christ: my wife and family.

Patricia Waters - I am an instructor in the English Department at the University of Alabama in Tuscaloosa. My home is in East Tennessee. My eldest son is in law school in Virginia and my younger son is at the University of Tennessee in Knoxville. I completed my Ph.D. in 1998 and have published my first book, The Ordinary Sublime, in 2006 with Anhinga Press.

Glenclyff Class of 1967 - Current Bios as of 2007.

Brenda Joyce Smith (Pack) - I met Charles (Tony) Pack, the absolute love of my life (even if he did go to East HS) and married him on 5/25/68. We are members of Brentwood Church of Christ. We live in Smyrna on a farm where our oldest son and daughter also have homes. We just retired from the family business of 32 years - Allen Printing, Est. 1931. We have 3 wonderful children. Chuck has two step sons, Jamie 21 and Lee 18 and a daughter Trinity 6 - the joy of his life. He is a great salesman for Allen Printing and is a College Baseball Umpire. Shannon and her husband Paul are the new owners of Allen Printing. They have three terrific kids, Lauren 12, Elam 9 and Shelby 7. Brett is our more adventurous child. After college he went to London to work and travel. Back in the states he has attended the New York Film Academy.

Tony coached our 3 kids and grandson's baseball/softball for 30 years, giving the family the opportunity to visit the greatest cities across the US in tournament play that included State titles and 5 Baseball World Series. The tournament days are over but Tony and I still visit ball parks. We have visited every SEC park the last two years supporting the Vandy baseball team. Our kids gave us a Caribbean cruise for our 25th anniversary and we went to Hawaii for the 2001 NFL Pro Bowl game - we even got to talk to Kevin Dyson. We took 25 days in 2004 to drive cross country - 6500 miles.

In 1981 Tony, myself and my sister Donna plus 2 other family members were selected to appear on Family Feud. My sister and I did kiss Richard Dawson a few times. We were on for 2 days, winning the first game but blew the second game. They had lots of fun with our southern accents.

I am proudest of my Christian family and so proud of my kids as people and for being great parents. I am also proud for staying in contact with several of my high school friends. My hobbies are spoiling my grandkids and my 5 pound poodle, all Vandy sports, TN TITANS, gardening and caring for my Koi and Goldfish rock garden pond.

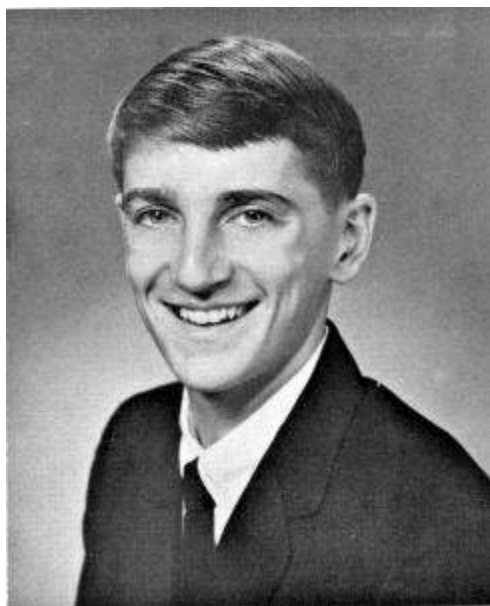

If our class could add a superlative award 40 years later, I would nominate myself for "Most Luckiest and Blessed Classmate from 1967". Let's all remember the classmates who were a big part of our lives and are no longer with us.

Glenclyff Class of 1967 - Current Bios as of 2007.

Jackson Green Carter - I was drafted after high school and spent two years in the army station in Wurzburg, Germany. I saw a lot of Europe and enjoyed every minute. I've been married three times and have two sons. My oldest is thirty five and a college grad. My youngest is a freshman at Seigel High in Murfreesboro. I'm most proud of my kids.

I've been single for a year, I work at Bridgestone in La Vergne. My hobbies are drawing, painting and keeping up with my fourteen year old. I'm planning to retire in four years and travel more, I've been to Mexico and planning to go to Ireland next summer.

Jack Wiseman Smith III - I attended U.T. Nashville Extension my first year to get English and Algebra out of the way before enrolling at Tennessee Tech in 1968 in the Business Management School. After a one year co-op assignment at First National Bank of Cookeville and leasing and operating a restaurant for another year, I received my B.S. in Management in 1974. I tried insurance for one year, and then I worked a one year assignment to organize and establish a Chamber of Commerce for Fentress County, Tennessee. Afterward I spent 3 1/2 years at Fleetguard in Cookeville before moving to Chattanooga in 1979.

For 10 years I sold office products for 3M Company and T.H. Payne Company before starting Cleveland Business Machines in 1991 with a partner. I became sole owner eight years ago after my partner passed away suddenly with cancer. Currently I have 8 employees and am an authorized distributor and service provider for Canon, Ricoh, Brother and Hewlett Packard Digital Office Products.

Currently, my wife Rita (from Matheun, MA) and our 2 sons Matthew (age 17) and Jackson (age 4) live in Hixson, TN. with our dog, Annie. My hobbies include old Chevy's, golf, billiards, and Jackson. I have no bankruptcies, no mortgage payments but my knees have been getting a little wobbly of late and I welcome emails in larger print. HA!

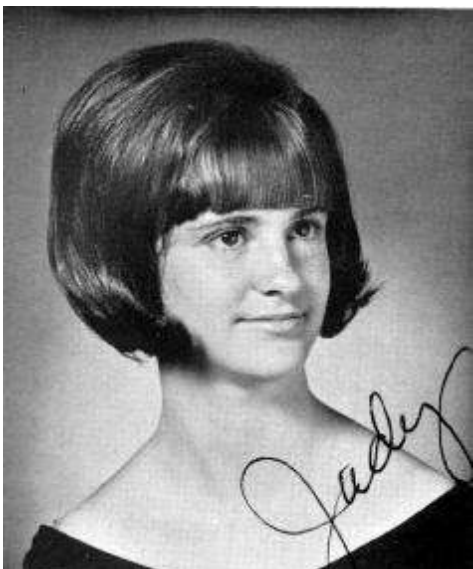

Glenclyff Class of 1967 - Current Bios as of 2007.

Frank Tong Gee - Following high school, I graduated from the Memphis College of Art and then took a job with the Methodist Publishing House as a design and layout artist. Working for someone else lasted less than two years at which time I started my own business, The Frank Gee Studio. It began with the publication of two limited edition prints and has grown over the years into a business which I have been lucky enough to maintain for the past thirty something years! My website is www.frankgee.com. As an avid fisherman and outdoorsman, I do fish rubbings from the real fish as well as a variety of other artwork including watercolors, acrylics and more! Be sure to check out the website, there are a few surprises there! I have been married to my wife, Dorothy, for 29 years, and we have two children, Mark 27 and Catherine 22. Both graduated from college as art majors!

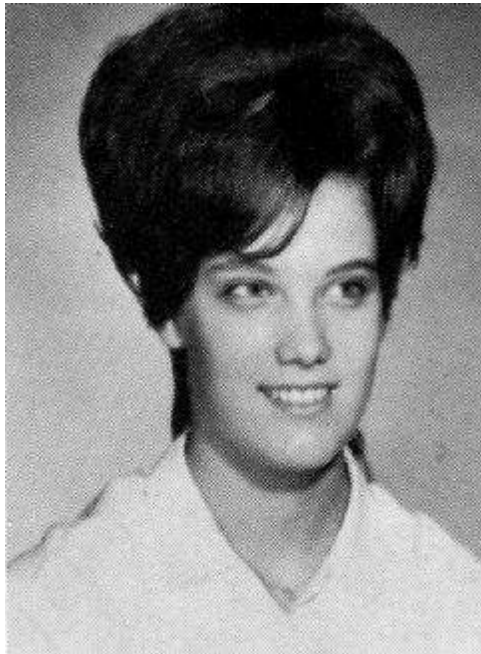

Robert Lee Taylor – Husband, Father, Grandfather, Christian. Farmer (part-time) - I have planted a garden to eat and caught the rain to drink, and have discovered that I have no need for an emperor or king. Sailor - I have sailed a 30 footer up and down the Choctawhatchee Bay, venturing into the Gulf on fair and pleasant days. Martial Artist - Southern Shaolin School, student of Master Rusty Gray, World Kuo Shu Kung Fu Champion 1989-1992. Un-reconstructed Southerner. All roads taken eventually stop. So I retired from the state where I played accountant, lawyer, detective, cop. Voice was so briefly given to dust, and unmoved, Balaam's donkey still knows whom to trust. That donkey remains un-fooled and proclaims we all should have been home schooled. I am still a Christian.

Judy Ann Barrett (Cothran) - I graduated from MTSU in 1971. I was married in August, 1971/ divorced in 2006. I taught 7 years at Whispering Hills Christian Academy. My son Blake and his wife live in the Nashville area; they have one child and another on the way. Blake works in real estate and his wife, Amanda, is a stay at home mom. My daughter Wendi is married and lives in Hermosa Beach, CA working with My Space.com.

I lived outside of Atlanta in Norcross and Braselton from 1986 to 2002. In 2002 I moved to Franklin TN. I'm in the Real Estate Investment Business and presently planning and building a new house on 12 ½ acres in the Franklin area. My hobbies are Golf, Softball, Biking, Jogging, Traveling, Exercising, and enjoying my grand children.

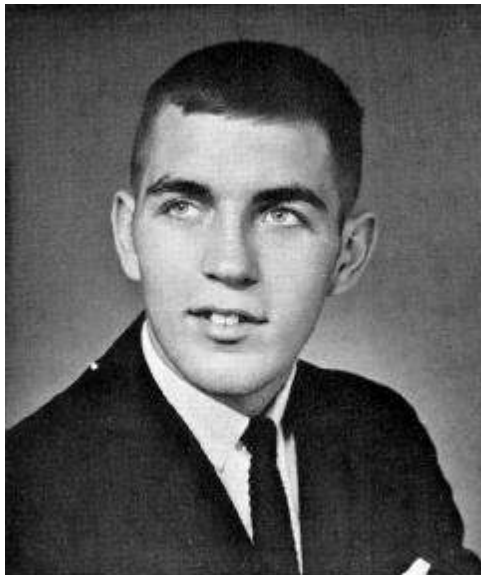

Glenclyff Class of 1967 - Current Bios as of 2007.

Sherrie Atkins (Cline) -After high school, I married a man from East High School. We have 3 children: Christopher, age 34, Aaron, age 28, Rachel, age 24. We have 3 grandchildren: Dylan, age 6, Tyler, age 2, Jillian, age 1 ½.

I worked for Mead Corporation for 13 years and left to work with attorneys in Brentwood for past 17 years. After working that long in law, I got restless to do something else besides law. I have been a Christian for many years and God called me to help abandoned and orphaned children in Nairobi, Kenya, Africa. I met a native minister, Bishop Dr. Bernard Omukubah. He had come to America. He spoke in my church, and as he spoke of the children, my heart broke for them. God spoke to me in my heart, to help this man. So I started Christ Abundant Life Ministries USA, LLC.

Now, I work for nothing, but God supplies my needs. I raise money for 3,000 orphans in 6 countries: Kenya, Tanzania, Somalia, Uganda, Ethiopia and Sudan. I also travel to Brisbane and Sydney Australia for ministries, and also Montego Bay Jamaica. As you can see, I stay busy. But I love every minute I am working for the Lord.

Johnnie Wendell Oakley - After the great days at Glenclyff, I spent almost a year at broadcasting school in Atlanta. After that Uncle Sam decided that he wanted my services, so I gave him a little over 3 years. Had basic training at Ft. Campbell with the 101st and then spent 1 1/2 years at Ft. Knox, KY working with vets returning from Vietnam. Then I spent 15 months in Izmir, Turkey working with the NATO forces.

Got married, worked at RC COLA in Nashville and then relocated to Sacramento, CA. I'm still working for RC COLA. I came back to Nashville in 1977. Met the lady I have been married to for going on 30 years. We have 4 sons and 1 daughter, and 14 grandchildren.

I have been driving an 18 wheeler for almost 30 years. I have been pretty much all over the US, a lot of coffee and Marlboro's. Started out hauling gas local then ran all over everywhere for 15 years. Now back hauling gas for Mapco Express in Nashville for the last 6 years.

Hope to finish out work in a few years and maybe do some traveling.

Glencliff Class of 1967 - Current Bios as of 2007.

Donna Gayle Brown (Buttery) - Forty years and I'm still a teenager at heart. I married on my 18th birthday and succeeded three more marriages and survived 3 more divorces, however, my greatest accomplishments are my 3 sons, Jeff is 38, twins Chad and Mark - 32. The love of my life is my 10 year old granddaughter, Kayla. I am a Senior Sales Director for Mary Kay Cosmetics. I have been very blessed in this career since 1970. As far as possessions, Mary Kay has blessed me more than any of my husbands. I have won diamonds worth over \$15,000.00, 11 Mary Kay Company cars, prizes and awards and big girl size pay checks. I have achieved more than I ever thought possible. The greatest rewards for me have not come in possessions. They are in paychecks of the heart and friendships all over the United States. Debbie Haggard Wair introduced me to Mary Kay and since then Jane Hartley Champion, Rita Sledge Locke and Sylvia Lee Woverton have joined my Mary Kay Team of successful women. I enjoy regular get-togethers with many of the women from GHS - we call this the girl's night out. By the way, all are invited who want to come. In 1997 I suffered a terrible tragedy, the death of my son Mark at 22 years of age. I have since looked at the world differently. Relationships, people, and friends are priceless. For fun and entertainment I am the backup dancer for Jane Hartley, Sylvia Lee, and Debbie Haggard on the bar at Tootsies. Dancing is my passion! My next goal is to open a Christian Coffee House. I'll tell you how that is going at the 50th reunion! Life is fragile, handle it with prayer.

Treva Dianne Mangrum (McDerman) - After graduation, I immediately went to work where I've been able to use those skills developed at Glencliff for my benefit. The following year, I married Ronnie Lackey, with whom I had two gorgeous daughters during our 13-year marriage. I've been married the past 19 years to Michael McDerman. Our daughters have given us four absolutely beautiful grandbabies, three girls and one boy from 5 months to 8 years. We have "best buddy night" every Friday, when all four spend the night with us.

I've worked for 22 years as assistant to the Chairman/CEO of a local engineering firm, Barge Waggoner Sumner & Cannon, from where I'll retire when the time comes. Wow, the new employees certainly do look young! Michael is a truck driver who loves fishing and golf. I'm active in Executive Women International, enjoy regular shopping trips, and love being Nana.

Michael and I live in Hermitage and attend Cornerstone Church. Life is good (but this aging process sucks)!

Glenclyff Class of 1967 - Current Bios as of 2007.

Brunetta Jane Hartley (Champion) - Let me see I have 2 wonderful children. My son and his wife live in Coral Gables, Florida. They lived on Captiva Island for about 4 years. It is a great vacation spot for me. My daughter and her family live here in Nashville and yes I have the 3 most beautiful grandchildren in the world Ethan is 5, Anna is 3 and Finn is 18 months. Now for the good stuff me. I work for Ann Taylor. I am the manager at the new location at The Avenue in Murfreesboro. Before that I was with Victoria's Secret in Green Hills. For fun I still raise and show horses. Also I run the streets and dance on the bars on lower BROADWAY with Sylvia Lee, Donna Brown, Debbie Haggard and other alumni of GHS. In case any one is interested I love long walks on the beach and candlelight dinners. SINGLE AND HAPPY IN SMYRNA.

Terrie Elaine Dunn (Finch) - After I graduated from Glenclyff, I married and had two wonderful children. My husband and I divorced after 14 years and I continued to raise my kids. Both kids are grown now. Shannon teaches at MTSU and Shane is in the real estate/mortgage business. They have blessed me with 4 wonderful grandchildren. Shannon has a boy and a girl and Shane has two boys. After 13 years, I just recently retired from the State of Tennessee in the Department of Health, Emergency Management Services. I love to watch football no matter who is playing. I like to read and I make floral arrangements. Most of my time is spent taking care of my 97 year old mother. I have moved back into the house that I grew up in to be with her and back into my old bedroom!

Letha Rebecca Bell (Ervin) - I got married in January of 1969, moved to San Diego, CA for about 2 year and then moved back to Tennessee.

I have been married to John for 38 years. We have 3 great children and 5 wonderful grandchildren. In 1994, I retired from AT&T where I worked for 23 years. Now I work for Sims Recycling Solutions, where I drive a forklift and load trailer trucks.

In 2003, I had breast cancer. I underwent chemo and radiation treatments. Since then I am a much happier person knowing that every day is such a blessing just to be alive.

Glenclyff Class of 1967 - Current Bios as of 2007.

Mary Lou Carpenter (Peyton) - During the last forty frolicking years, I've earned degrees in Medical Technology (U.T. Memphis, 1972), marriage and motherhood. My working experience after college included a shipyard clinic, several Nashville hospitals and the public health department. Life with Wayne the last 35 years has brought joy, adopted children and surety. We briefly lived in Newport News, Virginia and seventy miles south of Nashville in Pulaski. For 33 years we lived within six miles of Glenclyff H.S. However, we did venture outside of Nashville with our best travel adventure to Alaska and recently to Europe. We presently live in Franklin with a dog, a cat and two young adults.

Leslie Wayne Peyton - After graduating from UT-Knoxville in 1971 with an Industrial Engineering degree, my engineering career began in Newport News, Virginia at a shipyard. Eight employers and ten years later, I rationalized I would rather be selling to engineers than to be one, so a career change was made to industrial sales. In spite of at least four economic downturns and/or recessions, I continued in sales and am currently the co-owner of Handling Systems, Inc., a material handling equipment distributor located very close to our old high school. See Mary's bio for information regarding residency, travel and family life.

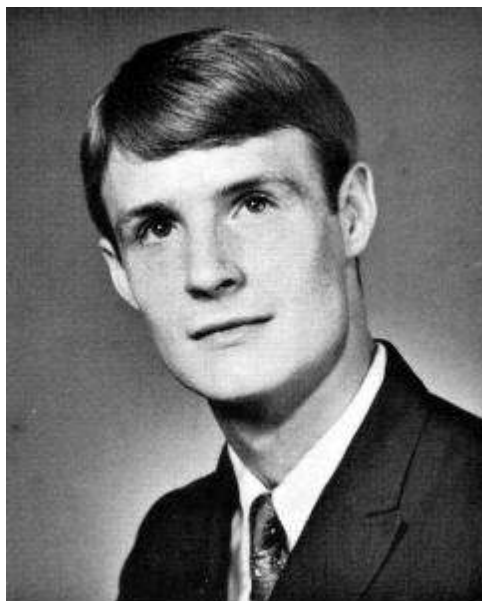

Linda Joyce Bilbra (Nelson) - I live in Roanoke, VA. with my husband, Dr. Joseph Nelson, Gastroenterologist. I am a retired physician from Public Health and Emergency Medicine. We have 3 children, Poppy 29, Liz 21, Betheny 19, and I have 2 stepsons, Joseph 30 and Garland 27. We just got back from a 5 week camping trip out west. I enjoy skiing, biking, boating, many crafts (ceramics, knitting, jewelry making), playing the harmonica, and still love to read. I've still got that "old time religion", Methodist, and am a long time Girl Scout leader, camp counselor, and Beta Sigma Phi Sorority sister. I would love to hear from you all, especially Jerry M. and Cathy M.

Glenclyff Class of 1967 - Current Bios as of 2007.

Wanda Jean Grayson (Troughton) - My life has been a rollercoaster ride filled with babies, moves, career changes and, of course, those other events that we all ruminate over far too much. The early years following school found me moving to Virginia, Florida, and Alabama, where I eventually settled in Mobile. While in Alabama I worked as a bank teller, endodontist assistant, part-time model and attended The University of South Alabama. I moved back to Nashville for a few years and attended MTSU. An opportunity in sales 9 years ago took me to the Destin, Florida area, and I now live in Crestview. I am a Senior Account Executive with Cox Communications and a member of Toastmasters and the Okaloosa County Chamber of Commerce. When I have some free time I love outdoor activities especially walking, bike riding and swimming. I also love to read and spend time with my family. I have been blessed with 2 wonderful children, Hilary, 37 and Shawn, 35. Hilary is married to Scott Hardy. They live in Mobile, AL and have 2 daughters. Shawn is engaged to Marla Brumit. Presently, they live in Charlotte, NC, but will soon be moving to Birmingham, AL. My granddaughters are the joys of my life. Meghan is sweet, fun and like most 9 year olds, very grown up. Caitlin is a sweet little helper and a very curious 3 year old. Along the way I have learned that life is full of ups and downs, and you have to be willing to go with the flow, follow your heart, and above all, trust in the Lord.

Roger Dale Harwell - I got married and left Nashville, TN in 1981. I lived 10 years in Dallas Ft. Worth. We have a son Nick. I owned and operated a sign business in Nashville and Texas. We left TX. in 1990 and lived in Jupiter, FL, W. Palm Beach 15 years, until returning to Murfreesboro a year ago. We are building a house on Hwy. 96, Franklin Rd. I am adjusting to being back in TN. along with the weather changes. Nice.

Glenclyff Class of 1967 - Current Bios as of 2007.

Jean Ann King (Tidwell) - After graduating I decided that I was already smart enough and needed no further education (*oh, how little we know at 17!*) so I went to work full-time for the telephone company as a long distance operator. During the next four years, I married, had a son, divorced, quit my job and, in the summer of 1972, moved to the Chicago suburbs where my parents were then living. I spent 18 years in the Chicago area raising my son and working at Sears Merchandise Headquarters as an executive secretary. By 1989, I finally did get "smart" and moved back home to Tennessee. I bought my first house, settled down in Dickson, and went to work, as a secretary, at one of Nashville's many hospital companies.

Over the past 17 years, I have continued to work in the secretarial field and currently work for Community Health Systems in Franklin. I was married in 2005 to the first love of my life, Gene, and we now live in Burns where he runs our technical training company from our home. He and I jointly have 5 adult children, 13 grandchildren and 1 very old and lazy dog. We enjoy living in the rural town of Burns and spend much of our free time working in the yard, riding four-wheelers, or having fun in the pool with the grandkids.

Janet Dee Shoub (Martin) - Hi, everybody! Sorry I'm not there to join in all the fun you will be having this weekend but I just got married on August 11th and we have family plans. Tom and I met at Metro's Planning Commission when we both worked there. No offense Rick but I think our marriage was one of the best things to come out of the Planning Commission.

Since leaving Glenclyff life has been good. I was married for twenty-three years and after divorcing had the pleasure of raising our son. He will turn twenty-one a few days prior to the reunion so you know I had my hands full. He kept me on my toes and on the go. Our two favorite trips with my family were Belize and Colorado. He played football and ran track and I loved going to all the activities.

Currently I am an office manager for a local CPA firm and really love it.

I hope to see all of you at the 50th reunion and be able to tell you how great these next ten years have been for us and to hear how great they have been for you.

Glenclyff Class of 1967 - Current Bios as of 2007.

Barbara Gayle Graham (Neff) -This request to write a bio is just like an assignment from Mr. Currey back 40 years ago in English class. After graduation I went to Business College, worked as a legal secretary, got married, had two sons, Jason and Graham, became a stay at home mom, then a single mom, and back to work. Jason is married to Angie Hillenbrand, daughter of Marcia Kirby, and they have two children, Lauren and Braden, and live in Smyrna. Graham is married to Adrienne Givens, daughter of Caprice Helton, and they have two children, Dayton and Riley, and live in Chapel Hill. I share these wonderful grandchildren with fellow GHS grads, Marcia and Caprice, therefore, keeping a lasting friendship. I have an additional eight grandchildren and one great grandchild. I am not that old. I married a wonderful man, Fred Neff, in 1993. He has two girls and they helped to make me Granny Gayle.

In 2000 I left my job of 25 years to go to work for Providence Real Estate Group in Green Hills. This was an opportunity to help grow a business and get my real estate licenses. Seven years later and a lot of hard work, I now manage 200+ rental units and have sold homes in 6 different counties. Fred is retired from the Tennessee Air National Guard. He was a flight engineer on the C-130. Fred has seen the world and now he works hard making sure I get to do the same. We have flown the C-130 to Alaska, Hawaii, and St. Croix. We have skied Utah, Tahoe and Colorado, spent a week on a catamaran in the British Virgin Islands and floated down the St. Johns River along with alligators on a houseboat. We live in Mt. Juliet and have a get-away house on Tim's Ford Lake in Winchester. While I am working, Fred is home thinking of new places to go and things to see. Next on our list is Cabo San Lucas in January. We are blessed with a loving close family and many friends.

Glenclyff Class of 1967 - Current Bios as of 2007.

Thelma McMurray - As I walked off the football field of Glenclyff High School in 1967, I was afraid that "the best years of my life" were coming to an end. However, I was unbelievably wrong. I moved from the GHS campus to the Austin Peay State University campus. While there I managed to do my part for the Vietnam conflict by dating as many Fort Campbell soldiers as I could work into my busy schedule. Oh yeah, and I got a degree in music education.

I put the music part of the education to use by becoming church organist. It was not a position I would have envisioned for myself, but it is one that I still fill. I utilized the education part of my degree several years later with an additional certification in elementary and early childhood education. The halls of Whitsitt, Turner, and Glenclyff looked much larger when I was a student than when I returned as a substitute teacher. I only subbed for a year and a half, though, before I began my tenure at Fannie Battle Day Home. Eighteen years later I realized that I was tired of teaching and that I didn't enjoy being a day care director. As a result, I took a month off to recover before returning to Lifeway Christian (then known as the Baptist Bookstore), where I had begun working in 1973, worked off and on during my day care days, and where I guess that I may just fade away among the books someday.

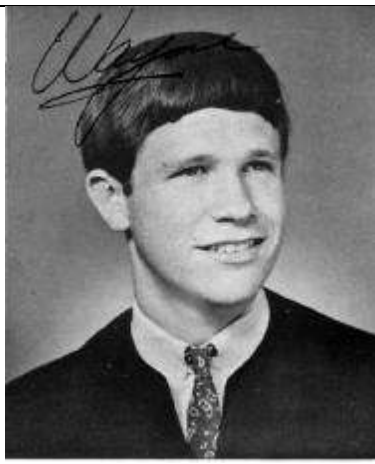

As the name indicates, I never married, but I certainly borrowed a lot of children over the years. I now have a niece and a nephew, as well as a great niece and great nephew. Don't ask me about any of them unless you're prepared to listen to me gush (want to look at my pictures?).

I have now discovered that "the best years of my life" are today, and the next day, and the next day.....

Glencliff Class of 1967 - In Memoriam

Joan Powell Anderson

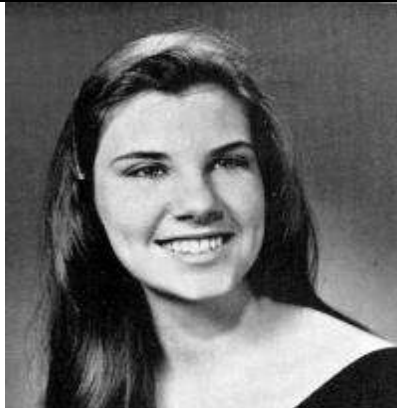

Edward Wayne Bolyard

Clifton Gail Demumbran

Ruth Anne Barnes (McNeill)

Linda Sue Carpenter (Tant)

Linda Anne Douglas

Tommy Billingsley

Freddie Conatser

Brenda Eubanks
